[TIMELINE]

Friday

All Arrive: 12 noon - 12 midnight

Saturday

Lights Out: **12 midnight - 6 a.m.**

Roll Call/Breakfast/Conduct Briefing: **6 a.m. - 7 a.m.**

Drill: **7 a.m. - 11 a.m.**

Final Prep: **11 a.m. - 12 noon**

Infil Transit: **12 noon - 2 p.m.**

Action: **2 p.m. - 5 p.m.**

Exfil Transit: **5 p.m. - 7 p.m.**

Rest/Dinner: **7 p.m. - 8 p.m.**

After: **Literature/Distributions/Awards**

Note: There are several opportunities to get ahead of schedule during Drill, Action, or Infil/Exfil Transit. We should take these opportunities as they appear.

Note: The two most critical moments of the larger action are the moment of first visual contact with police after Drop Off, and the moment of physical contact with the trucks at pickup. These two moments are where we have lacking control, but still

prevalent influence. Our precision in conduct will keep us safe. Only the General Director has clearance to speak with police. All others are to redirect comms if anything needs to be said outside of the Codes of Conduct.

Note: Briefing is to include Conduct Guidelines, Opposition Research, Codes of Conduct, and the securing of the emergency phone number. Teams will be briefed on Radio Etiquette, Column Elements, and Drilling Practice the night before.

- Cell Phones Deactivated & Labelled & Placed In Vehicle
- Activists Checked For Non-Travel Dress Code Items
- Confirm Driver To Follow To Campsite

Camp Protocol:

- All vehicles are to be lined up between the residence and the campsite to act as a visual barrier.
- All dress code items, and other identifying iconography is to remain completely out of sight until proper clearance is given.
- No communication with owners of the property is permitted but by immediate authorization of the correspondent.
- Volume is to be kept to an appropriate minimum.
- Cleanliness is to be observed at all times.
- Tents are to be arranged in a tight grid pattern next to the vehicle line, on the opposite side of the residence, ideally situated next to the vehicle the tents arrived in.

[TRANSPORT]

Three 26ft trucks to be utilized.

Sourcing Site: [6910 Richmond Hwy, Alexandria, VA 22306]

Sourcing Time: **5 a.m.**

Renter: **Samuel VA**

Pickup - **5 a.m.**

Delivery to Vehicle Exchange - **7 a.m.**

Drivers stay with vehicles until arrival at **2 p.m.**

If the trucks are sent off from the pickup location, the activists will proceed further from the District and attempt a new pickup location further north into Arlington.

If the trucks are not available for a retry pickup then the activist stationed at the Vehicle Exchange will drive a transit bus from the Exchange to the new pickup site and

retrieve only drivers, who will then return from the Exchange with all their vehicles in tow. This process will be repeated as many times as is necessary.

If the Vehicle Exchange is unavailable and no pickup can be made with all vehicles and trucks present, then flagpoles and heavy shields can be placed into the trucks or transit bus and the activists will attempt exfiltration by the Arlington Memorial metro station.

- All vehicles have drivers of appropriate skill sets.
- All vehicles have fuel in reasonable excess of that which is required.
- All drivers have digital, and printed copies of route and point addresses.
- All drivers have radio communications and backups prepared.
- Emergency secondary rallypoint is prepared if necessary.
- All vehicles will be mechanically capable of completing all needed parts of the route.
- All drivers have completed the headcount of passengers.
- All gear is checked and accounted for in vehicles by quartermaster.
- Drivers are aware of which gear is in their vehicle, if any.
- All drivers have visited the drop site at least once in preparation.
- All members patted down to ensure no unauthorized items.
- All members checked for proper dress code items and method of wear.

[OPPOSITION]

Previous police interactions with protests in the area have been under the circumstance of permitted rallies and pre-announced gatherings. In the case of a J6 Prisoner Support rally, there were more police than attendees, with roughly two to three dozen equipped with full riot gear making exhibitional movements around the temporary fences. Larger, 7ft tall fences were placed around the capitol for the brief time immediately predating and following the action. The police seemed largely indifferent and unaggressive. There were standard deployments of bike cops, cruisers, K-9 teams, and dump trucks stationed in a bumper-to-bumper line between the protesters and the Capitol. There were four arrests, one being an undercover agent.

There was a "Voting Rights" demonstration of 200+, permitted and fenced in, where a large number of protesters were detained, but only charged with citations in the form of a ticket to be paid on site, and processed at a tent pavilion on the street itself, not a jail. It is uncertain precisely what the value of the ticket fee was or the charge itself, but it appears the whole matter was resolved in a short series of hours.

We can assume that the police will not have the predicate notice to prepare large scale fencing, only the temporary waist height barricades around the Capitol complex itself. We will not be entering the complex where these barricades will likely be in place by the time of our arrival. Unlike our last speech at the Capitol, we will not venture into the Western lawn where we may be encircled. Instead we will conduct the speech at the large First St SE intersection where we may maintain greater mobility and avenues of exfiltration.

It must be certain that the activists must be non-confrontational toward police during their actions, who will most likely be screening us on their own accord. As we will be screening each other to ensure our lines are unbroken, any unnecessary contact or dialogue could set off an unwarranted complication. As of this writing, no indications whatsoever of an information leak are present. Even so, complete security will be minding the campgrounds at all times for suspicious behavior.

[CONDUCT]

What follows is a set of universally applicable rules and standards of conduct that activists must comply with to participate in these actions.

- *All guides, including discussion conduct, fully apply during all actions. Compliance with the guides is of paramount importance at all times.*
- *Activists are under the exclusive direction of organizers present for the event. A chain of command is to be outlined, and followed rigorously. Activists are not to make orders or authoritative suggestions out of turn.*
- *No weapons of any kind shall be brought to any action. No knives, gloves with hardening, firearms, batons, will be present at all. During the specific actions, activists must not carry metal pens, flashlights, bottle openers, or anything else which could be perceived as a weapon or implement capable of causing bodily harm.*
- *At no point will an activist engage in violent behavior of any kind, verbal or physical. Doing so is strictly prohibited, even in the case of self defense. The organization is put under greater threat by retaliation than it is by escalation.*
- *Alcohol, as well as all other drugs are forbidden at all organizational functions. Smoking or vaping is discouraged but allowed, but only during designated breaks in designated locations.*

- Activists are barred from communicating with any outside sources about the nature of the event, information relating to the event, or anything else which could put the execution of the action at risk.
- All communication for the duration of the event should be professional and concise. Arguing, bickering, or needless disagreement should be immediately avoided in favor of a utility based dialogue.
- Cell phones, and other communication devices will be confiscated, or deactivated during select portions of the action according to mandatory standards. Activists must agree to the possibility of their device being confiscated (not searched) at any point if deemed proper by organizers.
- All attendees must be willing to comply with a possible search of their person and their possessions if deemed so by an organizer. No items may be confiscated for any period of time longer than the action itself.
- Smoking, vaping, nicotine consumption, etc. is fully prohibited during scheduled prep, drilling, and for the duration of the action itself.

Additional Conduct Guides (if any):

- Per vehicle, during structured time, only one phone is to be active and/or in use at any given point in time. Ideally, the same phone and operator is in use consistently throughout structured time. This is outside of emergency, and is to be dictated by those in the vehicle.
- The only addresses available will be the Campsite Checkpoint, and the Vehicle Exchange.
- All activists will be subject to precautionary pat downs before final departure to Vehicle Exchange.
- Any suspicious activity is to be reported to organizational staff at the earliest opportunity. It is everyone's job to be vigilant to this activity.
- The Announcements channel may be used to distribute vital information to those with access to phones throughout the day.

[DRILL]

From **7 a.m.** to **11 a.m.** all activists are to conduct drills. All will be under exclusive authority of Drill Coordinators for the duration of this time, before being handed off to their Team Leads, Section Leads. The precise manner of drill is up to the discretion of the coordinators, provided they reach consensus. Drill must remain practical, punctual.
