I Michael E. White spoke with Dantay Reese in the Segregation unit of MCF. ST. CLOUD concerning him being on (Floridas) case. (Mr. Vance).

During this conversation with Dantay Reese, I asked him why he jumped on Floridas case. He told me that "its my life, and I had to do what I had to do to get home to my family".

During another conversation, Dantay Reese asked me if I was in his position would I have done the same thing to go home sooner. I told him no, because he basically took another mans life to keep from doing his own time, and that I dont get down like that. Dantay told me, "its not about how you get down, or how you dont get down, its about doing what needs to be done to better your situations."
