Thank you for your willingness to volunteer and for your office's assistance. Attached is the basic outline for the training scenario. The takedown night will be the culminating event for our HSI Citizens Academy. We have a total of 12 citizens from various professional backgrounds and community leaders that are very engaged and enjoying the inside look we are providing of our work and partnerships.

The takedown night takes place on November 7<sup>th</sup> at KCPD's training shoot house. As (b)(6); (b)(7)(C) said, we are requesting that you and your dog conduct your search after entry and the house has been made secure. More details will be forthcoming as the event approaches. And, of course, any leadership on your side that are interested in attending and to share about their mission for 10-15 minutes are more than welcome. Please let me know if they are interested in doing so.

Lastly, can you briefly explain the capabilities of your dog for training purposes? Would they be able to alert on some of our fake meth drugs that will be hidden throughout the residence?

Thank you,

(b)(6); (b)(7)(C)

It appears that they would like you to come in and run your dog on the house after the entry.

Is this going to be incorporated with a swat team or someone in full kit? If so that's fine, I just need to do some training with my own swat team to acclimate (b)(6); (b)(7)(C) to it, as he's been doing other training. Need to get him back in that mindset.

Is there anyway one of you guys can assist us with utilizing yourself and your K-9 as part of a scenario as part of our Citizens Academy?

Thanks!

We would like to have a dog present for the Citizens Academy takedown night occurring 6-9:00 PM on Thursday, November 7<sup>th</sup>, at KCPD's shoot house. (b)(6); said that you might have a contact at Platte or elsewhere. Is there someone you can put me in contact with? The scenario is that we are serving a search warrant on Cuba's residence and that drugs are suspected to be encountered.

Thanks,
