

# 2021-10-07 Mumble and chill with Alex OR, Thomas

These recordings were taken by an anonymous source inside of Patriot Front during August to December 2021. Unicorn Riot has produced transcript PDFs, MP3s and videos from this set of recordings. The transcripts and the Mp3s use the same set of timecodes. The main report on our website uses separate timecodes that match our videos, which are lightly edited to remove silence, with an additional introduction and credits.

The .mp3 files (as opposed to slightly shortened videos) represent the uncut documentation of these Patriot Front voice meetings. These uncut audio files have been altered as little as possible in the interests of source protection.

## **Accuracy of transcripts and speaker identities**

Unicorn Riot has done our best to compile transcripts with the most accurate time stamps and speaker identifications possible. Due to the combination of machine transcription and extensive human labor, there may be occasional errors in speaker IDs indicated in transcripts. but we are confident that the vast majority of the speaker IDs and content are correct. Some transcript timestamps are incorrect due to unavoidable issues with using machine transcription at scale, however, the majority are accurate.

Please note that these recordings may include Patriot Front members whose voices were not identified by us. When we were unsure about a speaker's identity we have left that line in the transcript without an assigned name, which machine transcription services usually tag as 'Unknown'. Many Patriot Front members have been identified by researchers, activists and journalists by linking multiple pieces of evidence to online personas.

## **SPEAKERS**

ND - Lawrence FL, Mason TX (Graham Whitson), Thomas Rousseau, Alexander OR (Richard Flannery), Vincent TX (Kyle Morelli), Brandon CA (Alexi Guthrie)

### **ND - Lawrence FL 00:10**

...happens, I will never talk to him again, I have no intention of ever speaking with this man again. Because I know he will never message me back because there will never be a time where I am a priority. And if that day comes, he can come reach out to me. I will never message him again or talk again. Ever. But see, the point I'm trying to get at is don't rely on these Pool Party guys. They know who we are. If they wanted to go do activism and they wanted to do stuff, they would apply, you know? Sure, maybe you can pull a couple, but I, I think the effort and the time it takes to you know, we shouldn't be pulling teeth to get people to do, to join our activities. You know, being here is a privilege. My time is valuable. He isn't respecting my time. I'm not gonna give him any more time a day. End of story. That's how we got to treat Pool Party guys, I think, to an extent. Like, you know what I mean?

01:07

Yeah, fair enough.

**ND - Lawrence FL 01:10**

I explained, I think to Johnny Utah, he said he's been trying for months to get one guy to apply. It's like, John, you don't need that one guy. Whether that one guy applies or not, it doesn't matter. If you invest that time and that energy into just doing more activism, getting bigger things into the activity, into the action report, onto the news, into, you know, the the main page posts, more people will come. You don't need to rely on a place, you know, that seems easy. In fact, it's harder to recruit from these established places in my opinion than it is from just the random internet. Because the people who are in there, they've already decided where they want to be. They're already comfortable there. Why would they want to change. Anyway, um, yeah, yes. For you. Let's let's talk to, who was it, Gary, and what was his name? Bob? No, not Bob.

02:08

Ben.

**ND - Lawrence FL 02:09**

Ben. Sorry, Ben. Let's talk him about getting a Mumble meeting at nine, what was it like, 8, 9 pm? 8 pm? What works, what works for you, Mason?

**Mason TX (Graham Whitson) 02:22**

I'll talk to him. See when they're available.

**ND - Lawrence FL 02:26**

Okay, yeah, just one day a week. 30 minutes, max. I think everyone can do that. I like to keep the meetings extremely short. Because I know we're all busy. And we don't really need to go over very much. I like to keep it as simple as, "What's your availability? How are we going to do it? Good night."

02:41

Yeah, that's what I do for my regional meetings.

**ND - Lawrence FL 02:43**

[Inaudible] do last week, because the idea is the expectation is everyone did something last week, or we were all there to do it together. We don't need to talk about it. We'll see it get posted on the main page. We can talk about it then you know. You can turn it around, like, it's just it's just a little bit of a slump. Even if there's no material, there's always something to do. You know, world's full of adventure. You just got to go out and find it and document it and show others, you know.

03:18

Dude, hikes are the best way to get like, you know, you got a bunch of guys up in wherever you are.

**Alexander OR (Richard Flannery) 03:25**

And you get them. It's it's such a great main page post. You're getting out there and you're doing something, like, even, even if it's not like a sticker. I mean, stickers are never going to be anything other than the small channel.

**ND - Lawrence FL 03:39**

Yeah, I explained that already. But umm..

03:42

More on the topic of like having nothing to provide, Mason. Do you want to brainstorm on things we could provide?

03:49

I think adventure and the activism is enough for me at least. Like, [inaudible] been doing this, I would never seen this much of the country.

**ND - Lawrence FL 03:58**

I probably still be living... Maybe I would still be living in Washington State. Who knows? You know, the most I've seen is like "wow, I went from Kirkland to Bellingham". That's it.

**Mason TX (Graham Whitson) 04:12**

I don't know, I can tell you about that. But I would rather do that in the meeting room.

**ND - Lawrence FL 04:17**

Alright, you want to do that like at a later time? Or do you want to an hour? What do you want?

**Mason TX (Graham Whitson) 04:24**

Oh, I can see when we have if we can have a meeting like it just be easier if they're all there that we just talk about it?

**ND - Lawrence FL 04:34**

Sure. Sounds good. It's pretty late for me. So I kind of want to go to bed too. But um

**Mason TX (Graham Whitson) 04:40**

Oh no, not even that. I was gonna say like, we can still hang out here but I mean, if you want to do it now I don't care.

**ND - Lawrence FL 04:49**

Sure. I mean, I'm available.

**Mason TX (Graham Whitson) 04:51**

I just saw two other people. So I was like, they probably want to talk.

**ND - Lawrence FL 04:57**

Sure. Well, yeah. If you, I'm happy to...

**Mason TX (Graham Whitson) 04:59**

You can DM me, I mean, I'll fuckin text if you want me to.

**ND - Lawrence FL 05:03**

Yeah, sure, sure. Well, in which case I'll hop off and I'll be on my computer for a little bit but I am going to get ready for bed

**Mason TX (Graham Whitson) 05:10**

No problem. I'll talk to you soon, Lawrence.

**ND - Lawrence FL 05:13**

Yeah message me, everything over to me and we'll sort it out from there. Alright, have a good night guys.

**Alexander OR (Richard Flannery) 05:20**

Have a good night, Lawrence. So Vincent, how're you doing, man?

05:31

Hey, good. I actually came on because I saw a message from from John Washington telling us to jump into Mumble, but I might have misread the time.

**Alexander OR (Richard Flannery) 05:39**

Yeah. Yeah, it was like, maybe an hour or so ago.

05:48

I was at the gym.

05:48

Did you post any...?

05:49

Oh, go ahead.

05:50

Sorry.

05:53

I was at the gym. And then, then I had a work meeting. I have pretty late work meetings. So I missed it.

**Alexander OR (Richard Flannery) 06:05**

Yeah, it was just about the event coming up and plane stuff. Did he post anything in your Network 8 chat?

06:18

Yes. So we, we've been given the flights that we're supposed to attend? Did I miss any other details? Like, what did you hear? Just in case?

**Alexander OR (Richard Flannery) 06:25**

So, we just talked about where we wanted to land. That was where we talked about, just what would be the easiest. The location that was picked for us to drop off is the cheapest for everybody in the PNW. So that's why he picked that location. Yeah, just just about that, making sure everybody's still available. Other than that, yeah, it was just hammering down the drop off location.

07:03

Gotcha. What were the other options? Do you know?

**Alexander OR (Richard Flannery) 07:07**

Yes. They're, the one that we're going to is a we're going to have a five, or well, I think it's like actually a four hour drive from the airport to the campsite. There was a one hour location. And then there was also like, a three hour one and I think another one after that. But Newark is the cheapest. And also, there's a lot of rental vehicle options out there in New Jersey, compared to some of the other locations. And also, if you've never seen the Statue of Liberty before, you might get a chance to see it.

07:51

Yeah, I figured John probably wouldn't say it but I was guessing that maybe proximity to the location too...

**Alexander OR (Richard Flannery) 07:59**

If four to five hours from Newark gives you any ideas, then I mean... ...I've got a, I've got thoughts, I have hopes, but like, I never know where it is and that's the fun.

08:18

Yeah, totally. I don't want to spoil it necessarily. But I have hopes too, it's just kind of a curiosity.

08:24

Oh yeah, I know we were talking about like places that might be more more antagonistic.

08:29

But if we're if we're four hours from the campsite, um...

**Alexander OR (Richard Flannery) 08:34**

It's four hours from the airport to the campsite. The campsites can be...

08:47

What was that?

**Alexander OR (Richard Flannery) 10:49**

Hello.

10:50

Hey I'm back, my Wi-Fi router restarted.

**Alexander OR (Richard Flannery) 10:53**

Oh, okay,

10:54

uhh..

**Alexander OR (Richard Flannery) 10:54**

What's the last thing you heard me say?

10:55

You said something about, I was asking if it's four hours away from the campsite and then you were talking about the campsite.

**Alexander OR (Richard Flannery) 11:04**

Oh yeah, so the airport that we're dropping off that is about four, like four-ish hours away from the campsite.

11:21

Gotcha. Yeah, no, I was, I didn't know if I had misheard that the airport's four hours away from the location or the campsite's also four hours away from the location?

11:30

Do they usually keep a campsite pretty far away from the location as well?

**Alexander OR (Richard Flannery) 11:34**

Yeah, usually we want to keep the campsite from, far from the location. Like when I was Salt Lake City demo at the start of this year, our campsite was like, maybe an hour and a half, close to two from, from Salt Lake City. And I think when they did the Philadelphia demo they, they were pretty, pretty far, or like two hours or so because you know, it's all it's all cities up there.

12:13

Yeah, I saw the the flight details that John wants us to take and four hours to get to the flight would be pretty early in the morning after a pretty long action, I imagine.

**Alexander OR (Richard Flannery) 12:27**

Yeah, you're gonna be, basically with demos. Always take that Monday off if you can as well just because like for example at Philly, they were marching for like four or five hours, dude, it was, it was long, they were tired at the end. Like, when it was, you know, the middle, middle of winter and we did the SLC demo I was pretty pooped, like it was, it was really cold. Like, you know vision's kind of blurred

because there was an active kind of like, active, like, snowstorm going on. And like, we were, we were going for like a couple hours, most guys, if you're working on your cardio though, it's not like a super big problem. But you will be tired the day after.

13:35

Yeah, totally makes sense. I should probably make sure I have that Monday off too, my work is fortunately really open about me taking days off.

13:43

Like my supervisor told me that he's not going to deny me just about any day that I take off as long as it's not when everybody else is off work as well.

**Alexander OR (Richard Flannery) 13:51**

Yeah. Yeah, I am usually pretty able to, like I actually have that first week of December off, so. Sadly though, oh shit I forgot to tell John this actually, I can't get any days off in November. Any, any weekends specifically. So I'm only going to be able to attend one drill, which is next weekend.

14:25

Cool. Well, I'm sorry to hear that but at least, at least you'll be able to make one.

**Alexander OR (Richard Flannery) 14:29**

Yeah, I mean, the most important thing is I can at least make one. I would ideally like to make three but I can't realistically do that because I have a lot going on in the month of November. And yeah.

14:46

Are you and Frederick carpooling up again?

**Alexander OR (Richard Flannery) 14:49**

Um, might carpool... Oh, hey, Thomas. How you doing?

**Thomas Rousseau 14:52**

Hello, what's, what's going on? Can I help with anything?

**Alexander OR (Richard Flannery) 14:55**

Oh, no, we were just talking about drilling.

**Thomas Rousseau 14:57**

Drilling. I can help with that. What kinda drilling are we doing?

**Alexander OR (Richard Flannery) 15:01**

Oh, like getting getting there. Like, in terms of availability like I was talking about how I was wasn't available for...

**Thomas Rousseau 15:09**

Like traveling to meetings?

**Alexander OR (Richard Flannery) 15:10**

Yeah, just traveling. Yeah.

**Thomas Rousseau 15:15**

We had a guy just apply, 8:37 pm. Said, my political ideology, wrote "whatever is best." Illustrative, man. Religion he says, "I wish." "I am not able to do anything meaningful on my own." You're telling me buddy.

**Alexander OR (Richard Flannery) 15:39**

On average Thomas, how many joke applications do you think you get?

**Thomas Rousseau 15:45**

Well that's the thing, I don't think that guy was joking.

**Alexander OR (Richard Flannery) 15:48**

Oh my goodness.

**Thomas Rousseau 15:50**

It depends. After, there was some news stories that came out from Pennsylvania. If you saw Twitter and we got maybe about a dozen hate mail applications saying, saying that were terrible and we're hillbilly bumkins and that they were going to rape my non-existent wife and that my, you know, so on and so forth. Basic, basic things like that. Yeah, pretty used to it. Stuff about you know, melanated genitalia, which is pretty common. But usually we don't get that many of those, maybe one off every now and then, but, I don't know, it's hard to tell. There's a very gray line between someone who's just dumb and writing a terrible application and someone who's joking. You know how it is with irony on the internet these days.

**Alexander OR (Richard Flannery) 16:35**

Yeah, that's true.

**Thomas Rousseau 16:37**

But we respond to a pretty solid majority of the applications we get, it's just, you know, you know, some of them don't even log in and then a lot of them don't pass the interview so it's, it's a narrowing process every filter they go through.

**Alexander OR (Richard Flannery) 16:53**

Oh, yes, for sure.

**Thomas Rousseau 16:55**

So Vincent, you took photos and were at the the hike in the mountains... California, right?

17:01

Yes, that's correct.

**Thomas Rousseau** 17:03

Gotcha. So there's two folders that Brandon sent me, there was another guy who was taking like some long exposure shots the night sky and the campsite. That was someone else, Logan right?

17:18

Yep, Logan California and he did some some really good photos he showed me some of those and his tripod was better set up for that than, than mine was.

**Thomas Rousseau** 17:29

Buddy, Nathan needs to work out, boy. I'm looking through your photos right now. Did you get any, get any close ups of the Kekistan flag, Vincent?

**Alexander OR (Richard Flannery)** 17:44

Wait, what?

**Thomas Rousseau** 17:49

I got it. We got to put that on the front page. Branding.

17:55

I think after, after what happened with the Mount Rainier hike, I tried to avoid anything that wasn't like, that I knew was explicitly good optics.

18:05

So I definitely was trying to be careful about that.

**Thomas Rousseau** 18:09

I don't think it's too much to ask. And like, even little things like I heard someone on the Ranier hike do wouldn't put their 50 star flag the right way around which is inverted because.

**Alexander OR (Richard Flannery)** 18:20

Yeah.

18:22

Yeah, I missed that. I didn't see that until, I actually didn't review the photos.

**Thomas Rousseau** 18:27

When it comes to little things like patches, man just like say "Hey, bro, hold up real quick", done, you know, like that's what I do with people, because you know, doesn't matter, right? And yeah, and every time I've ever been messed with by cops with, with y'all and otherwise, that flag has always been on their shoulder. I don't take too kindly to it.

**Brandon CA (Alexi Guthrie)** 18:57

Don't take kindly to them in these parts.

**Thomas Rousseau** 19:01

Or in any parts for that matter. What percentage of the way up the mountain do think you went?

**Brandon CA (Alexi Guthrie)** 19:08

For, for the white mountain peak one? That, we got pretty close to the end. What would you think of that Vincent? And we got, we got to the last saddle back before we had to go up the last slope. So we, I would say we got near the end?

19:26

Yeah, I think if it was, it was seven miles the whole way. One, one direction. I think we probably made it at least five, maybe six miles [inaudible]

**Brandon CA (Alexi Guthrie)** 19:35

Sounds about right.

19:36

That last mile would have been pretty, pretty tight uphill.

**Thomas Rousseau** 19:39

It gets exponentially harder with the altitude and the, I don't know, I say that considering Albert but like, it's like we started at the tree line and I don't see a single tree for like 30 miles in any direction. Well, no there's some bushes back there. But um, but y'all, did y'all pass like a grass line? It just turns into rocks or is there grass most of the way up?

**Brandon CA (Alexi Guthrie)** 20:04

It's pretty desolate all around.

**Thomas Rousseau** 20:06

I see like, little shrubs and stuff and most of these pictures there's like this little gray grass, you know?

**Brandon CA (Alexi Guthrie)** 20:11

Oh yeah, there's stunted, gray and dead grass, but like there there's not really much greenery back at the campsite there's actually trees.

**Thomas Rousseau** 20:23

Yeah, I saw those. I really liked those long exposure shots. Had it, did you have like a tripod? I imagined.

**Brandon CA (Alexi Guthrie)** 20:30

Yes, he did.

**Thomas Rousseau** 20:32

And I had a tripod, I don't know what happened, I think I lost it in the move. I gotta go back and get it or something but I'd really love, I love, I love these long exposure shots especially with the stars, how they were, I really liked that we did this, I like, like when we're doing creative stuff. I'll definitely be able to source a lot of these photos into S.O.C.

**Brandon CA (Alexi Guthrie) 20:54**

Yeah the, the long exposure shots with the stars, it worked out very perfectly. Like, the region we were camping and a lot of people, they go to that region for two reasons...

**Thomas Rousseau 21:04**

Well it's an observatory.

**Brandon CA (Alexi Guthrie) 21:05**

Yeah, there's an observatory there. There's also the California University Research Center along the trail up the hike which we pass by, but yeah, people go there for two things, either go up the mountain or to stargaze. And we got a pretty good look at like, the Milky Way and everything.

**Thomas Rousseau 21:26**

James Arizona here rockin a, an off-brand 50 Star flag patch with the black outline. Cutting my supply chain [inaudible] or something. Yeah, but no it looks it looks like everything you know, I mean, in the photos make it look like everything went well. I'll be able to, I'm going to start mixing these into, I need to, I need to schedule a bunch of new SOC posts. But Vincent, you and Logan to the same extent, y'all should start working on your skills and your setup so that you can do photog, and video and stuff this this December thing that you're going to. Definitely want to work on cardio big time because there's going to be a big bloc of guys, you know what, when we're setting up the, you know, the the bake sale, and you, you're going to be running up and down and left and right and all over a good while for maybe a few hours, you know? You're going to be running around and that's not even including stuff that you might want to do at camp, right? So definitely start working on, I think Logan is, like you said, Logan was like, a big cardio guy, like he was a runner or something, Brandon, I think is someone else who mentioned.

**Brandon CA (Alexi Guthrie) 22:41**

Logan California. Yeah, he gots a runner's build and he says he he spends a good amount of time doing cardio.

**Thomas Rousseau 22:48**

So Vince, you know, if you needed to any additional fitness, fitness help, then you definitely have that be a big goal, cardio and mobility, as a, when it, when it comes down to it, you know, the difference between getting, getting that shot, you know, is just getting there in time, you know?

23:07

So are you asking me to be a camera guy for the next thing?

**Thomas Rousseau 23:10**

No, Vincent, Vincent Washington.

**Vincent TX (Kyle Morelli) 23:12**

I was, I was like, Whoa, I don't know how to do all that.

**Thomas Rousseau 23:16**

Yeah, Vince, I need you to be on radios, I need you to be a camera guy. I need to do first aid. And I need you to give the speech. And I need you to tie my shoelaces, okay?

23:28

Behind me is [inaudible] Massachusetts.

**Thomas Rousseau 23:34**

Ice cream soft serve. I'm hungry. Yeah, fun fact, last DC, 2020, I actually did have to stop the march to tie my shoes. Because the sole, the sole on my boot had actually fallen off or was falling off. And I had very big soles on my boots. So I would be walking, like, hobbled, like, I would be like, I would have a noticeable limp the whole way, which I didn't want, so what I did it was like, brainstorm. So I stopped, I kneel down, I get behind a few guys so they can't see me. And then I tie my shoe laces under the boot and then back up over on top and then tie them together to hold the hold the sole on, and I did that for the rest of the day. And then I threw those boots away.

**Brandon CA (Alexi Guthrie) 24:24**

There you go. Adapt and overcome.

**Thomas Rousseau 24:27**

I just glued the other sole back on. That, the previous day when I was driving through Tennessee, you know something, if something's gonna go wrong, it's gonna go wrong in Tennessee, that's what they say. People who say that, you ever heard them say that?

24:41

I never heard that.

**Thomas Rousseau 24:43**

You ain't lived until you stopped at a small gas station outside of Knoxville. And you bought a thing at J-B Weld and you've, and you're sticking your shoe back together with a man from Arkansas in the back of a passenger van. You ain't never lived until you've done exactly that.

**Brandon CA (Alexi Guthrie) 25:01**

I've been to Tennessee 2 times and I haven't had that experience.

**Thomas Rousseau 25:07**

Tennessee is probably one of my, one of my favorite states. So it's a nice state to drive through, you feel good. You just feel good driving through Tennessee, you know, are, the signs, everything's just kind of nice and comfortable.

**Brandon CA (Alexi Guthrie) 25:21**

The south is just great, honestly.

**Thomas Rousseau 25:23**

Virginia just feels oppressive. I, I'm sorry, at least in the areas I've ever been. It's wrong because I only go to northern Virginia. But

**Brandon CA (Alexi Guthrie) 25:31**

Where are you going in Virginia specifically? Is it Richmond?

**Thomas Rousseau 25:35**

I've driven to DC a lot. I went to Richmond once, and in DC, 2020. But, uh, western Virginia is is kind of alright. But the thing is, I always end up going through western Virginia. Like at night, right? So I never actually see it, never stopped anywhere except maybe a gas station. And if I'm ever in Virginia and it's daytime, I'm probably in around DC or otherwise northern Virginia. And it's, you know, oppressive and governmental. So my opinion of Virginia has been due to this. I recognize this bias, but I can't help it.

**Brandon CA (Alexi Guthrie) 26:10**

You just got to get to the more rural parts. Of course, avoid Richmond at all costs, unless you got like, you want to be mugged.

**Thomas Rousseau 26:18**

Ya got business there. Business.

**Alexander OR (Richard Flannery) 26:22**

Actually wanting to move to West Virginia. I really like the state.

**Brandon CA (Alexi Guthrie) 26:28**

Oh, the Old Dominion state does have a lot of history and beauty, [inaudible] mischief?

**Thomas Rousseau 26:37**

He's being mischievous. He's ripping up paper towels and leaving the trash. He hides under Mason's desk and he's like, "oh, you can't see me. You can't see me". Tex has a thing for socks, right? He loves to he loves to grab socks... [Talking to dog 'Tex'] Hey, hey hey. He loves to grab socks and then parade them around. And he wants you to chase him, right? Because he loves that. And, and, you know, then if you won't chase him, he'll like just like, press his paw down and just start, just start tearing the sock into shreds and threads, make a terrible mess, and he's always doing Patrick's socks more than anybody else's. I don't know why. So I think, I think his grand total is like three socks in one day. And consider those are each part of a pair. So the fact that Patrick still has socks to wear at this at the going rate, it surprises me.

**Brandon CA (Alexi Guthrie) 27:35**

[Inaudible] aim for those odd numbers just so you have a pair that can't be used.

**Thomas Rousseau 27:42**

He can't, he can't always get hands so he goes for feet instead. Always furious, always furious. [Talking to dog 'Tex']: Oh my god. Oh my, no, no. He's a terrorist is what he is. He's a domestic terrorist. [Talking to dog 'Tex'] Leave me alone. [Speaking to dog 'Tex'] I'm working, Tex, don't embarrass me in front of my Patriot Front. [Inaudible] Shut up. We're gonna be, we're gonna be bringing him to the Network 1 and Network 2 meeting this weekend and he's gonna have so much fun, whenever people are drilling Tex loves to run around and run in between.

**Brandon CA (Alexi Guthrie) 28:26**

You know, speaking of Network 2, have you heard anything from Nathan Texas?

**Thomas Rousseau 28:32**

Nathan Texas hasn't been in Texas in maybe a few years I feel, I I don't know. I don't know where the hell he is. I don't know what he's doing. I know he's gonna pop up again. Eventually. He's been doing it. He's been very inconsistently consistent. Like previously, he's had an excuse of like, oh, there's never guys where I go, but we have such a better spread of members now that like, I feel like he should, even if he's being a little nomadic, which is fine. I feel like he should be able to meet people almost anywhere he goes, so.

**Brandon CA (Alexi Guthrie) 29:05**

Oh, he's definitely more than a little nomadic. He is completely nomadic.

**Thomas Rousseau 29:11**

I mean, that man was an enigma back when he lived locally and we like met up with him. You should reach out to Jason and see if he can track him down.

**Brandon CA (Alexi Guthrie) 29:21**

I mean, he contacts me sporadically. Last I heard he was coming down back south, he seems to very much enjoy a particular area in the San Diego beach area. He seems to have taken a liking to his particular spot there. But last I heard he was traveling back down from Oregon down to the southern California.

**Thomas Rousseau 29:45**

He usually stays and kind of usually always stays in the west. But yeah, just, uh, reach out to Jason, maybe Jason has an extra contact for him. I feel like we just tried to get him back into it. I mean, the man's been an enigma forever but he's, he's an honest guy at least, I mean, he's nice. He's not dangerous or anything. I don't know. Reach out to him and see if we can actually integrate him back into formal structure.

**Brandon CA (Alexi Guthrie) 30:09**

Oh, I'm definitely trying. Its just, he's always moving around a lot. But last time I saw him in person, I, jeez, that was a while ago. We did, we did a group sticker run at a university. Where was I? I think it was in Orange, California. We did that with him.

**Thomas Rousseau** 30:30

I haven't seen him in God knows how long. Nathan, fun fact, Nathan is probably one of, probably the longest standing member if you can call that. Besides maybe me and Billy, I think he's been around since, he might have been in VA [inaudible] PF existed, but he might have. I think he was actually. I think he was.

**Brandon CA (Alexi Guthrie)** 31:02

I think he was, I remember he was telling us when he met with us at one time, he was telling us about stuff like that.

**Thomas Rousseau** 31:09

Yeah. It gets old. Us VA members are dying breed.

**Brandon CA (Alexi Guthrie)** 31:16

Well, you know, seeing VA doesn't exist anymore, I can see why.

**Thomas Rousseau** 31:21

[Inaudible] then I think, I think him, me and Billy are the only ones left that, that have been in.

**Brandon CA (Alexi Guthrie)** 31:32

Billy Texas? I don't think [inaudible]

**Thomas Rousseau** 31:39

Yeah, he kind of has a unique status due to his longevity. He doesn't, he doesn't usually do a lot of travel stuff. And he has like, a back issue, which means that he can't do a whole lot of physical stuff. I certainly sympathize with [inaudible]. He comes, he comes to local stuff in Network 2. He helps out with the NNM meetings and other stuff. And he's a, he's very, he's very tech and, tech and finance savvy guy, which is crazy thinking about he joined VA, which is like, such a, such a worse group to do that with than we are now. It's strange man, back then, you know, like, there's just so much manpower going around. And so little care, like, with, like, how people were judging stuff, which is not like, a critique on anybody, because I was there too, you know, but um, it... Nowadays it's like, like, people always, you know, like, examine everything under a microscope about joining X group or being loyal to XY figure or e-celeb, but back then, man, none of that matters. Like, oh, this this random group, I'll just send him an email, don't worry about it, you know? And you got the extremes, right? You didn't really get many regular people. But you got people who were both very valuable and very useless. And you put them in a big melting pot together and you ended up with trash, so fun fact, very, very valuable people don't work well with entirely useless people. Especially under structures that are dictated by useless people, or if they're dictated by the valuable people, you only have trash to deal with, or fun fact, you know, zero times, you know, zero times, 100 is [blows raspberry], you know, so that's what happened.

33:37

Doesn't sound like sound math.

**Thomas Rousseau** 33:42

Zero times 100 [inaudible] I'm pretty sure and it is it is in an effort to [inaudible] get off my back, Vince, y'all can can't be, we all be neurosurgeons like you are.

34:01

I'm just neuro, I'm not a surgeon.

**Thomas Rousseau** 34:03

No, Vincent actually owns a hospital.

**Brandon CA (Alexi Guthrie)** 34:06

Vincent, are you telling me you have the PF hospital here?

**Thomas Rousseau** 34:10

No, it's owned by Moderna.

34:14

Thanks for the dox bro.

**Thomas Rousseau** 34:18

Vincent is actually making our vaccines, he's trying to encode a sticker printing format into people's mRNA, so that, so that when those people then have children, those children come out with like, a fresh patch and bag of stickers because the DNA. There's a joke in here somewhere, just...

**Brandon CA (Alexi Guthrie)** 34:39

Genius.

**Thomas Rousseau** 34:39

The science you do. The science you do.

34:42

That sounds useful for activism.

**Thomas Rousseau** 34:44

I saw, I saw a meme about, or it was like a thing about them encoding data into DNA in, and put that in vaccines. There's a joke somewhere.

**Brandon CA (Alexi Guthrie)** 34:53

I mean, I saw a thing where the Chinese government is trying to put spider DNA in babies.

**Thomas Rousseau** 35:00

Nah, nah nah nah nah nah nah, no that's Batman. What's the Spider Man theme song? Spider Man... he's a Chinaman with spider DNA mixed in... [inaudible]...extra limbs, extra chromosomes, extra

eyes. What's not to love? I was, I was in the house yesterday. In case y'all were surprised by that, I was at home. And there was a big old spider, like a wolf spider. You know, I'm not very arachnophobic, but some things just get me. So it's a big like wolf spider, harmless and stuff. But it's walking around, and then I'm looking at it. And I'm like, how am I going to deal with this? You know, do, am I going to smash it and then pick it up with the thing? Am I gonna, you know, flick it into a trashcan or something? And then, and then Tex comes over. He's like, oh boy, is this a new toy and he goes sniff, sniff sniff and he like, slams his nose into it. And all of a sudden, we found it was a mama's spider. And it has like hundreds of those little babies and they just start crawling everywhere all over the tile in the wall and everything. And I'm like, oh my god, what am I gonna do? Like, how am I going to get all these? So then I, you know, I very politely kick Tex to the other side of the room. I didn't actually kick him. I just like pushed him back and I said stay. And then I went and I grabbed like, like a bleach cleaner because we don't have like bug spray, bug, bug killers. I just grabbed a bleach cleaner and sprayed all over the whole, whole part of the hallway and then mopped it up. And that, fun fact, bleach kills spiders, just like it does people, so. But, uh, Tex was, uh, very inquisitive and he was probably just as scared as I was when he had a bunch of tiny spiders crawling over his nose. [Talking to dog 'Tex']: Weren't you, buddy, weren't you? He says yes. We went to the park today and played while the other guys were at work. And there was a, there was like, a, like a sunbleached basketball. I was kicking it across the field. And then he would sprint after it. You know, kind of doing that thing that dogs do when they kind of sprint at something running so fast and they don't know how to stop. So he like, trips over it. And he's trying to bite it but it's a big basketball and he's, he's a big dog but he's not that big, you know? So he can't actually bite it in his mouth. So he's just sitting there gnawing on it and then while he's gnawing on it... [Talking to dog 'Tex']: Oh, hello. And while he's gnawing on it, I kick it again. And then he runs around again. [Talking to dog 'Tex']: Great time, wasn't it Tex? No, no. Do y'all have dogs? You should have a golden retriever if you don't have a dog.

**Brandon CA (Alexi Guthrie) 37:34**

I got a husky named Avalon.

37:38

I have a Siberian Cat.

**Brandon CA (Alexi Guthrie) 37:42**

Yeah, you know, weirdly enough, there seems to be a lot of Huskies in California for some reason. I got, I got...

**Thomas Rousseau 37:50**

[Inaudible] like a fancy dog.

**Alexander OR (Richard Flannery) 37:52**

Yeah, purely a fancy dog, like I, my former mother in law used to breed a lot of dogs and that's a very common one.

38:02

Yeah, my family used to breed Siberian huskies in particular.

**Brandon CA (Alexi Guthrie) 38:07**

Yeah, we got a, got a husky here actually, going, going to be getting a second one probably tomorrow.

**Thomas Rousseau 38:14**

No no no oh my god no, he's attacking me, get back.

**Brandon CA (Alexi Guthrie) 38:27**

Well guys, we're gonna have no more source of stickers after this.

**Thomas Rousseau 38:37**

[Inaudible] time at any cost. We trained him so well. [Talking to dog 'Tex']: Alright, alright. Hey, all done, all done all done. All done. All done. I know you're upset. Hold on. Anyways, I'm sorry, go back to y'all.

**Brandon CA (Alexi Guthrie) 38:51**

Demanding, demanding Tex.

**Thomas Rousseau 38:53**

He is demanding, just, just, just like his poppy. [Inaudible]. The other guy, the other guys got jobs. I'm, you know, I'm technically unemployed according to the IRS. I just hang around the house all day and do absolutely nothing. But me and Tex, me and Tex hold down the fort every day.

**Brandon CA (Alexi Guthrie) 39:19**

You get to slave away in the sticker dungeon.

**Thomas Rousseau 39:22**

Yeah, it's actually quite more spacious than the previous dungeon, well, it's a, it's more stuff in a condensed space but it's better organized now, um. I have a big stack of cardboard boxes, and I got a shipment of a, of 2000 sheets of adhesive paper maybe about a week ago and I've probably worked through, I don't know, maybe 600 sheets of it. Came in sheets of 100K and boxes of 150... 1, 2, 3, 4, 5, 6, 7, 8, 9. So there's nine boxes of 150 and I originally got 2000. How much did Thomas cut? Algebra equation? [Humming 'Jeopardy' theme music]

**Brandon CA (Alexi Guthrie) 40:08**

Do you know what this actually reminds me? Thomas? Some of my guys in the last regional meeting they were asking about, um.

**Thomas Rousseau 40:17**

I'm working on the orders. Jesus.

**Brandon CA (Alexi Guthrie) 40:20**

Not, not orders, they were asking about like, assisting with sticker orders, like setting up other sticker shops in certain regions.

**Thomas Rousseau** 40:28

Yeah. See, that sounds like a great idea until you realize my profits would be slashed by like a third at least. We have three shops and then I can't pay rent anymore. And then I have to get a job. And now I have, like 60 percent less time than I did. And also remember that, you know, the funds from the promat that doesn't just go to the promat, but it also goes to things like our servers, to me putting in, you know, donations, to some other Kickstarter projects, like, like our, you know, help with the shirts and the shields and the other things. You know, I pull a little bit of extra weight around that stuff sometimes. So, you know.

**Brandon CA (Alexi Guthrie)** 41:08

Okay, okay, fair, fair. Yeah, they just wanted me to ask you that.

**Thomas Rousseau** 41:14

We don't, we aren't, we aren't operating in a free market scenario right now. It's a bit of, a bit of a command economy. But things are, things are going fine. I have a really big stack, I've done a lot. And you know, we would keep it up with orders we were, we were pretty close to caught up by the, by Independence Day. And we've sent, we gave plenty orders there. I got about an average of 10 orders at each of the big hikes I went to. I mailed out another one, another, two actually, just the other day, and I'm setting up a big batch. And probably, I'll try to get another batch or two out in October and then everything after that I'll try to deliver in December. There's gonna be a lot. I'm going to be putting another order for posters here soon.

**Brandon CA (Alexi Guthrie)** 42:08

You know, speaking of all this. You remember those, I guess, I guess they were limited run patches you had, you had them at like the NJP event.

**Thomas Rousseau** 42:19

The unofficial ones? For, those aren't limited run. I'm still making those. I'm just giving them out whenever, I'm only giving them out in person right now. But yeah, I'm still making them I've sold a bunch at the, the other hikes.

**Brandon CA (Alexi Guthrie)** 42:31

Gotcha.

**Alexander OR (Richard Flannery)** 42:33

How many do you have planned for December? Because I want to buy at least one of every single one.

**Thomas Rousseau** 42:39

I'm gonna bring a bunch. So come prepared. It's while supplies last.

**Brandon CA (Alexi Guthrie)** 42:47

Your, you don't have to fist fight some guys to get yours.

**Alexander OR (Richard Flannery) 42:51**

What I'm hearing is I'm just gonna have to get in there like a day early.

**Thomas Rousseau 42:56**

I'm not sure, I'm not sure. I'm probably going to be one of the, one of the latter, latter travel parties to show up as usual, cause uh, ya know, but, you know, hey,

43:10

Oh, I noticed on the printshop, you took down the Chevron flag that used to be up there?

**Thomas Rousseau 43:18**

Yeah, we weren't selling flags anymore, we had a bit of an issue with those, people buy them, and then they would kind of keep them. And then when we needed them for demonstration, they wouldn't bring them. And people would be reluctant, people would be reluctant to offer their flags up for demonstrations or stuff. They thought they wouldn't get them back. And to be fair, they didn't. But the issue is, I would much rather us go without flags and some banner drops or some stuff like that, if we're 100 percent sure to have the ones we need at a hike or at a thing. And I have been distributing them into various clusters. So, so most, most areas should have one or two. And I'm going to be placing a big order for a bunch that will probably kind of, you know, distribute accordance, each according to their need, you know, at December. But I need to make sure that we have a bunch of... By the way, did, did they do a thing in in Oregon or Washington where they had like 50 Star American flags, like tied up in bridges?

**Alexander OR (Richard Flannery) 44:16**

Yeah, actually, that's very common in some of the more working class rural towns. Like in [inaudible], I have a few banner drop locations planned for and there it is littered with 50 Star flags. Like how many of you need?

**Thomas Rousseau 44:34**

I'm not saying, I'm just saying if we end up, you know, needing a bunch at the, at the march or something, if we end up needing 100 flags, and maybe we want to, you know, a third, third, third ratio between the 13 star, the 50 star inverted obviously, and the chevron. You know, they're I mean, they're free, right? And they're putting them out there. They want them to be used, right? They're just being used improperly. So you...

44:55

You actually already paid for them if you pay taxes.

**Thomas Rousseau 44:58**

Yeah, so there you go. It's the people's flags. So yeah, if you, if you're on a road trip with somebody and something on the way back, you know, maybe it's a little covert, go and, go and nab those as might be reasonable for a trip. I've encouraged people in other areas. I know that's very common in like, you know, like, I remember that being very common in like Connecticut and Western Massachusetts when I drove through.

**Alexander OR (Richard Flannery) 45:26**

Yeah, basically, any part of Oregon that votes, uh, votes conservative, there's always going to be a 50 star flag somewhere just out and about.

**Thomas Rousseau 45:38**

I mean, obviously, you don't want to mess anything, like the front lawn, but if it's on like, like an overpass, then...

**Alexander OR (Richard Flannery) 45:44**

Yeah, I understand.

**Thomas Rousseau 45:46**

And I don't feel like disrespecting it. Because for one, technically, technically, if you want to interpret the flag code, we are flying the flag properly. As a we are in a state of distress, the whole, the dang whole country is in a state of distress. But also it's not like we're destroying the flags, we're using them. And in fact, they're probably going to be they're probably going to be, they're serving a more proper purpose than they were otherwise by just being on a roadway, you know.

**Alexander OR (Richard Flannery) 46:12**

Yeah. Yeah. And I mean, already, I don't know about other states, but in in Oregon, specifically, they've had the 50 star at half mast for almost two years now.

**Thomas Rousseau 46:22**

Yeah, yeah. Might as well just shorten the flagpoles at that point.

46:27

Yeah.

**Thomas Rousseau 46:30**

But uh, yeah, I've sent that idea to people, they don't really do that here in Texas, because we don't have that many bridges that are, that have fences on them. And you don't really see that. But any areas that you're driving through a bunch of those areas and you want to, you have time to kill, because I know you probably got to take every exit and then, and maybe it's at night. So you don't got to worry, just bring a, bring some like, standard clippers just to get those zip ties. I assume they do zip ties.

46:55

Yeah.

**Thomas Rousseau 46:56**

Get however many of them you can, we'll use whatever we got.

47:00

Yeah, there's a specific location, but um, there's a mining company that puts them up on a, on a overpass going into...

**Thomas Rousseau** 47:09

Company-made government flags.

47:11

Exactly.

**Thomas Rousseau** 47:13

There you go. Blair Mountain all over again. Bingo, you got it. You know what's up, do that. Do that and bring me a duffel bag full of them. And they're usually like the nice embroidered ones aren't they?

**Alexander OR (Richard Flannery)** 47:27

Typically.

**Thomas Rousseau** 47:28

Nice. Those are so expensive. If you get those at Home Depot. They're like 25 bucks a pop. Isn't that crazy?

**Alexander OR (Richard Flannery)** 47:32

Oh, gosh, at the, uh, at the army surplus store that we have they're like, oh, man, I'd actually have to see how much my more than free, it's not like, it's not like 25, I think it's a little bit less. I, my father got a stars and bars flag.

**Thomas Rousseau** 48:01

Yeah, deffo, get, snag me a bunch of those. Vincent. Also I want a duffel bag, I want a duffel bag full of flags by December.

48:09

When I was, when I was traveling the past two days, I marked some, I, two specific overpasses that had a dozen each. So I will, I will send those to Henry.

**Thomas Rousseau** 48:21

Yeah because really, last time we went to DC in the January we had scrambled to get some [inaudible] and stuff and it was stupid expensive. And I was kicking myself. Because, because when we came from DC I came from Boston. And I was like, man, I saw 100 of them just sitting there on fences, you know, in the middle of streets that, that were nice embroidered ones, and instead we're having to buy like, Walmart printed ones for \$15 a piece. Its ridiculous. I think it's, you know, I have enough respect for the 50 star flag. Not to like, like video us like, ripping them apart or like, you know, burning them and stuff like that. I feel like it's a valid symbol, if only because it's a iteration of a more adept symbol. But I believe we are, I believe that's the, it's the justification that we're actually using it properly. We're using it in the intended, that, to showcase the distress of the nation and the opposition to the state.

**Brandon CA (Alexi Guthrie) 49:26**

Well, question, Thomas, do you want it to be a 50 star or 49 star flag in the future?

**Thomas Rousseau 49:35**

I don't really... Without getting into policy and territorial. How would you define the borders of your ethnostate?

**Brandon CA (Alexi Guthrie) 49:43**

I was just making a joke about Hawaii.

**Thomas Rousseau 49:46**

I don't like, you know, I don't really like non-, the non-contiguous territories. I think Alaska is fine, but I just I don't care about Alaska either. I mean, I know it's nice and pretty. But to be honest, Hawaii has got a lot of pretty spots too, but it doesn't mean... you know, whatever, I don't care. I don't think about it. I'm never, I'm, I'm probably I'm realistically, probably definitely never going to go to Hawaii, realistically, probably never going to go to Alaska.

**Brandon CA (Alexi Guthrie) 50:14**

We've had guys in Alaska before. I remember we used to have Sean Alaska. But I think one of the very big problems with Alaska is that...

**Thomas Rousseau 50:21**

We get one at a time, and we could never connect them.

**Brandon CA (Alexi Guthrie) 50:24**

Yeah, they're so isolated, they drop off. That's the problem with Alaska. They're so isolated.

**Thomas Rousseau 50:30**

Say, say we do get a network out there somehow, right. How the hecksticks are we going to ensure, like, first of all, they're going to be crazy isolated? And how are we going to know if they're doing dumb stuff? Right? Because there's none of that cross pollination that we have. Even you know, and I mean, you know, Brandon, you guys in Southern California are probably the most, you know, comparatively isolated guys in the country right now, as far as, you know, clusters go. But even then, you know, y'all meet up with the Washington guys and the Arizona guys. And Arizona guys meet up with us. And you know, we in Texas meet up with everybody. Right? So that's, you know, then you're two, you're two degrees of separation at most from someone in Maine, right? In that way, you're just adding tons of extra steps. Also, if you're driving to, that you have to you know, pass like a border checkpoint, no matter what, that causes obvious issues. Well, yeah, it's like, a passport because driving to Canada. I think they have like ferries, maybe?

**Brandon CA (Alexi Guthrie) 51:33**

Yeah. So you can take a boat. That's actually true.

**Thomas Rousseau 51:36**

But that's expensive. And annoying.

51:39

Yeah, it's cheaper almost to drive.

**Brandon CA (Alexi Guthrie) 51:41**

Boats are not expensive if you know what you're doing. Fun fact, years ago, when I was trying to join the French Foreign Legion, I was looking at a route that would have me working on a cargo ship and they would drop me off in France. Very cheap, completely free. Alls they want is my labor.

**Thomas Rousseau 52:01**

Yeah, I was looking at a way for guys from Minnesota to drive to Michigan without having to, for Wisconsin, without having to go all the way around. And apparently there's a big ferry passage that can take cars too and go straight across from like, uh, like Mantacot or one of those weird, you know, super northern Midwest sounding towns. And it's actually quicker to do the ferry straight across than to go all the way around, even though it takes you like four hours, which I guess makes sense. It's a big hecking lake. But it's like, it's like kind of more of a tourist thing than like, oh, I'm, I need to get across the lake in the fastest way thing. So it's like, oh, you do that for the experience, and not because hey, I need to get over there and don't want to drive through Gary, Indiana. Because you know, who wants to drive to Gary, Indiana? Am I right guys?

52:54

They're building an airport there right? Or were they thinking about it?

**Thomas Rousseau 52:58**

They should build it as fast as possible!

53:04

They're trying to like, revive the whole, the whole city.

**Brandon CA (Alexi Guthrie) 53:09**

Quick thing on Alaska, if we did get a network up there. Honestly, I'd be willing to visit them.

**Thomas Rousseau 53:16**

You know, honestly, I would be more okay with us not recruiting there. But maybe occasionally, if ever, sending a group of continental members up there via ferry or or whatever, or plane and having them like do some cool, hiker mountain stuff there. But.

**Brandon CA (Alexi Guthrie) 53:36**

I've been looking for mountains up there.

**Thomas Rousseau 53:38**

it's kind of like a colony, you know, but so like, we just have a caste system that if you're, if you're from Alaska, it's like the Spanish caste system. You're not like a, like a Creole. You, you're like a [inaudible]. I'm kind of, obviously if someone... the reason that uh, obviously there are Americans in Alaska, it's just due to logistical reasons with it being a non-contiguous territory, we can't really organize there. But if someone, if someone was born in Alaska, lived their life there and whatever, and they moved, then yeah.

**Brandon CA (Alexi Guthrie) 54:12**

You're saying we should conquer British Columbia to connect Alaska to the continental United States?

**Thomas Rousseau 54:18**

Honestly, I you know, I don't really, I don't really know or care a whole lot about that, that area of Canada. But if you, if we can just like, get the highway, like, put a border fence on either side of the highway or something. I don't know. Man, I look at all these towns and there's so weird gerrymandered borders with all these like, municipalities and stuff like that. You ever look on Google and see how towns will be like this big area and then just this road, and then another big area all the way over here? You ever look at that?

**Brandon CA (Alexi Guthrie) 54:45**

Trust me, I know. You want see gerrymandering taken to the max? Look at like, the counties in California.

**Alexander OR (Richard Flannery) 54:53**

I know exactly what you're talking about Brandon. When I was living in SoCal, it was just, oh my gosh.

**Thomas Rousseau 55:00**

Counties, counties in Texas are great because they're almost all perfect square.

**Brandon CA (Alexi Guthrie) 55:05**

Not here, not here.

**Alexander OR (Richard Flannery) 55:07**

Whats a perfect square look like? know, let's just, let's just take up the entire Mojave Desert and go over the San Bernardino forest into LA.

**Brandon CA (Alexi Guthrie) 55:17**

There are counties in California that looked like like literal cancer. It's like, it's just this long weaving snake in between a bunch of other counties. It's like what's, who did this? And was the election that important?

**Alexander OR (Richard Flannery) 55:31**

Yes, it was.

**Thomas Rousseau 55:35**

You know what bothers me? Panhandles. They're not like, like Texas has a massive panhandle that's bigger than some states. I'm talking, like West Virginia's panhandles, what's up with that? What's up with that? Why? It really is Ohio. It's not even West Virginia, you know, it doesn't count.

55:54

Yeah, like the reason that those things like exist is well, what, because it's like, the Civil War, right?

**Thomas Rousseau** 56:03

Yeah, well, West Virginia is at least, at least with the, with the other [inaudible] Maryland. I hate the shape of Maryland, Maryland's a great state just, dude, I hate it so much. The shape, not, not anything else about it, I actually like Maryland. I just, I hate to shape, the geography of Maryland bothers me immensely.

**Brandon CA (Alexi Guthrie)** 56:21

It's kind of fun to look at states and see what they look like. I remember growing up, my dad always told me that our home state of South Carolina looks like a pork chop. So that's how I remember it.

**Thomas Rousseau** 56:32

I can see it. Why can I see it? Ugh. It really bothers me. We should have more, we should have more of a presence in South Carolina and Tennessee. Now, we're actually doing really well in Alabama and Georgia right now and North Carolina. So so we have, we have South Carolina surrounded with good people. It's just we don't have anybody yet. We used to get a lot of people there. I mean, Brandon, you remember Arthur?

**Brandon CA (Alexi Guthrie)** 57:00

I do remember Arthur. Yes.

**Thomas Rousseau** 57:02

He was a solid guy, and back when COVID started, he started making those weird, like anti-5G graphics. And he was making anti-vaccine stuff and it's like, you know, on it, like, you know, I don't think anybody was like, you know, bending over backwards to like support vaccine companies or stuff. It's just, like, I mean, come on, guys, you know, let's try to, let's try to, like, PF isn't going to be an anti-vaccine group. Can we you know, can we get back on topic here? And then, you know, it's like, all this other stuff, and then, and then because like he got talked, like talked down to, was making all these like crazy, crazy sticker designs. He just like cut out and never, never came back which is dumb, by the way, but whatever, he was a lot older than most guys, so.

**Brandon CA (Alexi Guthrie)** 57:48

That's a shame that he left.

**Thomas Rousseau** 57:51

That man's ...Myrtle Beach like 1000 times. Oh, dude.

**Brandon CA (Alexi Guthrie)** 57:54

Oh, dude. Myrtle Beach, I remember going there as a kid.

**Thomas Rousseau** 57:58

It really bothers me that we don't have a stronger group of guys in Tennessee. We've had guys come and go but it's, it, you know, there's a huge metro area around Nashville. And it's such a, it's such a central area for the, for the eastern part of the country - that, and in St. Louis, which, we actually have a great big group of guys now,

**Brandon CA (Alexi Guthrie)** 58:14

How are we in Kentucky?

**Thomas Rousseau** 58:17

I think we have one, maybe two guys. And they're right on the border of Ohio, so they're kind of, you know, right on board with them

**Brandon CA (Alexi Guthrie)** 58:25

On the border with the carpetbaggers.

**Thomas Rousseau** 58:29

Ohio's nice.

**Brandon CA (Alexi Guthrie)** 58:30

No, I'm just joking.

**Thomas Rousseau** 58:32

When we went through Columbus, there's a lot of, that was fun. Yeah, there was uh, that was, that farmland was actually really nice.

**Brandon CA (Alexi Guthrie)** 58:39

Oh, it was very beautiful. There there was quite a few times where I felt like just wandering off into a cornfield [inaudible].

**Thomas Rousseau** 58:49

Vincent sent me a picture of his dog. Oh, wait, is that, uh, that's not Wolfie.

**Brandon CA (Alexi Guthrie)** 58:54

No, that's my dog.

**Thomas Rousseau** 58:56

Your dog, is that a shepherd? Australian Shepherd or a different kind?

**Brandon CA (Alexi Guthrie)** 59:00

Yeah, he's a, he's a mix...

**Thomas Rousseau** 59:01

Or border collie?

**Brandon CA (Alexi Guthrie)** 59:01

He's a mix with a, uh, a Bluetick Hound is what they would call it in the south.

**Thomas Rousseau** 59:06

Hm. Would have been useful to have him when we went to Nashville.

**Brandon CA (Alexi Guthrie)** 59:13

Yeah, I don't want to talk about that. I, I have like eight of those things on me.

59:18

You had 8 ticks on you?!

**Brandon CA (Alexi Guthrie)** 59:20

Yeah.

**Thomas Rousseau** 59:22

So sweet. I had one big one. I still have a little. It never got red or anything. But I have a tiny little like scar from where I took the tick off.

**Brandon CA (Alexi Guthrie)** 59:33

Yeah, you gotta be careful with ticks, especially if you rip them off. Their head stays on there. It can burrow into you.

59:41

I honestly preferred the tick situation to the wasp situation.

**Thomas Rousseau** 59:46

Yeah, so I actually got my tick. I actually didn't get any ticks from Nashville but I got a big tick, my big tick was a, was in the New Jersey campsite. Because when I went out there and did that, I did it for an interview that we didn't even end up publishing with Lucca because it was blurry. The, the whole thing was out of focus. Tex is chasing a fly around the hallway by the way. And he doesn't realize that it's three dimensional and he can't catch it. But yeah, we went on to the tall grass. And I did an interview and I thought it was actually pretty good, the content of what I was saying, but we didn't end up publishing it because it was all out of focus. And yeah, very annoying, but I found the tick the next morning when we're picking Adam up from the hospital, because Adam rode with Carter to get his fingers put back together after the box truck decided to bite them.

1:00:36

Chomp.

**Brandon CA (Alexi Guthrie)** 1:00:38

Oh, wait, wait, was this in Nashville? Or was this in Philadelphia?

**Thomas Rousseau** 1:00:42

Philly, Philly.

**Brandon CA (Alexi Guthrie)** 1:00:43

Oh, yeah, I remember that. Guys, don't, don't, don't use the running tracks as a handhold.

**Thomas Rousseau** 1:00:50

That's not a handrail.

1:00:53

Hey, what do we, um, have you considered bungee cords to wrap on the inside of like those, like little wooden rails? Because we could use those I think?

**Thomas Rousseau** 1:01:05

Um, I haven't considered it.

1:01:08

Do you know what im talking about?

**Brandon CA (Alexi Guthrie)** 1:01:10

I know what you're talking about.

**Thomas Rousseau** 1:01:11

Why don't, why don't you make sure bungee cords get to where we're going?

**Alexander OR (Richard Flannery)** 1:01:15

Okay.

**Brandon CA (Alexi Guthrie)** 1:01:16

I mean, you're talking about using them as kind of like a handhold. Right?

1:01:19

Yeah.

**Brandon CA (Alexi Guthrie)** 1:01:20

Yeah, that honestly, that sounds like a workable idea.

1:01:25

Because it doesn't damage the van in any way, shape, or form.

**Thomas Rousseau** 1:01:30

I you know, I wish it wasn't so. I mean, it's not financially viable to buy a box truck. But if we could, if there was some sort of like, modular thing that we could just slide into the back of a box truck that would have like, a bunch of those handles. Like a subway car does, you know, like, just something that you put together and then just slide in. You know, that'd be nice, but I don't think that's feasible or reasonable. Again, I've never actually ridden in the back of the box truck, so I don't know how like, awful it is, but you know, [inaudible].

**Alexander OR (Richard Flannery) 1:01:58**

A lot of people complain, but yeah, it's fine.

**Brandon CA (Alexi Guthrie) 1:02:02**

You still need a good driver. That's all I'm saying.

**Thomas Rousseau 1:02:06**

[Inaudible] let John WA drive, y'all sounded, y'all sounded like you were dying back there.

1:02:13

I mean, a couple people were, but...

**Brandon CA (Alexi Guthrie) 1:02:14**

What are you talking about, when we were locked in there by the cops?

1:02:18

No, that was Philly.

**Brandon CA (Alexi Guthrie) 1:02:20**

Oh, my bad. Um, I mean, I just remember one time that...

**Thomas Rousseau 1:02:28**

We ran through like four red lights, to be fair, there was nobody that no other cars going. So it was safe, but illegal, we ran through like four red lights to get to y'all.

**Brandon CA (Alexi Guthrie) 1:02:37**

I mean, riding in the box truck is not bad at all. I would just say as long as the driver knows what they're doing. I remember there was one time I was in the back of a box, box truck and this guy was taking such sharp turns, like the whole, the whole group of guys in the back were just slamming against the side of the wall and we hear it like, creaking and popping and we're like, uh oh.

**Thomas Rousseau 1:03:00**

That might have been in Pittsburgh, the, that, it's, it, see, it didn't seem as bad in the front when you actually have perspective, that, as it did in the back. But, um, yeah, that was a, that was a very nasty box truck in the roads in Pittsburgh going to and on and off the highway [inaudible].

**Brandon CA (Alexi Guthrie) 1:03:15**

I wasn't, I wasn't there for the Pittsburgh one.

**Thomas Rousseau** 1:03:18

That guy had his floor, his foot all the way to the floor and you're going like 28 miles an hour.

**Brandon CA (Alexi Guthrie)** 1:03:24

Yeah, I heard the feedback of the East Coast guys about that. The box [inaudible]

**Thomas Rousseau** 1:03:29

We got, we got our money's worth out of that rental. Probably the heaviest load it's ever carried. Like 80 guys or 90.

**Brandon CA (Alexi Guthrie)** 1:03:41

As long as the driver knows what they're doing.

**Thomas Rousseau** 1:03:43

Yeah, I think that was Ryan. He's a, he's a pretty solid, solid, uh, solid driver. [Inaudible]

**Brandon CA (Alexi Guthrie)** 1:03:50

I think the trip I'm thinking of I think was in either Utah or San Francisco.

**Thomas Rousseau** 1:03:58

Yeah. [Inaudible] pretty nice...

**Alexander OR (Richard Flannery)** 1:04:02

I don't think it was San Francisco because John WA was your driver, that's the only suggestion, don't let John WA be the box truck driver.

**Brandon CA (Alexi Guthrie)** 1:04:14

I mean, all, all box truck rides I've ever had, great, completely smooth. You know, it all goes well and then that one trip, just everybody's slamming like, just a bunch of dice, and like a couple of couples.

**Thomas Rousseau** 1:04:27

I need to find, uh, I need to find drivers for December, um, I'm thinking we'll go with, with some of the same ones but I know, I know one of them isn't with us as a member anymore. And another one is doing another role currently. Do ya'll know any immediate suggestions for guys who are very capable in driving big trucks? Like [inaudible]

**Brandon CA (Alexi Guthrie)** 1:04:49

I know, I know two off the top of my head.

**Thomas Rousseau** 1:04:52

Dang.

1:04:53

I know, I know one.

**Brandon CA (Alexi Guthrie) 1:04:55**

So the two I know is, now, now, wait, there it is, Travis California and James Arizona.

**Thomas Rousseau 1:05:05**

Travis is already on, Travis is already on my list.

**Brandon CA (Alexi Guthrie) 1:05:08**

James Arizona then.

**Thomas Rousseau 1:05:10**

Really? Okay, interesting, um, I might have another idea in mind for James, um, what about [inaudible].

**Brandon CA (Alexi Guthrie) 1:05:18**

Both of them know how to drive well.

1:05:20

Unless you, me personally, I'd like to see him in in the march, but. Grant.

**Thomas Rousseau 1:05:28**

Grant Maryland?

1:05:29

Yeah.

**Thomas Rousseau 1:05:30**

Yeah, he's, I have a different role for him already.

1:05:32

Ok.

**Brandon CA (Alexi Guthrie) 1:05:34**

And I guess I should point this out, but I have recently also taken up a job as a, uh, as driving some larger vehicles.

1:05:46

You fool.

1:05:48

Brandon works for a funeral home.

**Brandon CA (Alexi Guthrie) 1:05:49**

This is going in my BuzzFeed article.

**Thomas Rousseau** 1:05:54

Brandon drives an Oscar Meyer Wiener truck. Hey Michael, say hi to the guys Michael.

1:06:05

Hi Michael.

1:06:05

He says hi guys.

**Thomas Rousseau** 1:06:06

Brandon says Hello.

**Vincent TX (Kyle Morelli)** 1:06:08

Is Mike still, is Mike coming with you guys in January? [Inaudible]

**Thomas Rousseau** 1:06:12

I don't know. I haven't asked him. Would you like me to?

**Vincent TX (Kyle Morelli)** 1:06:17

I mean, I'll, just ask him if he's still planning on coming.

**Thomas Rousseau** 1:06:20

Hey, Mike, are you still planning on being Vincent's best man in January? Yeah, he says he wants you to be the cup ringbearer or something?

**Brandon CA (Alexi Guthrie)** 1:06:31

Pretty sure you got to be like 10 years old to do that.

**Thomas Rousseau** 1:06:34

He'll be on his knees, he'll wear shoes on his knees like they do in [inaudible].

1:06:37

Can you bring Tex, can you have Tex do that?

**Thomas Rousseau** 1:06:41

I don't know how the heck I'm going to get there, but I'll try. [Inaudible]

**Vincent TX (Kyle Morelli)** 1:06:45

I'm actually gonna have, I might actually have a house by the time, by that time, so.

**Thomas Rousseau** 1:06:52

I usually just sleep in the dirt.

**Vincent TX (Kyle Morelli) 1:06:54**

Well I've, yeah, I'll have acerage and you can you can at least camp.

**Thomas Rousseau 1:06:57**

Hell yes, camp? What do you mean? I'm just gonna roll out my sleeping bag in the dirt.

**Vincent TX (Kyle Morelli) 1:07:04**

Okay.

1:07:04

Thomas, we have a nice bed in here for you. No, no, no, the dirt out there is much better.

**Thomas Rousseau 1:07:09**

I need to, I need to bear all of the same hardships as the guys even if they all have tents. And I slept in, I slept in the dirt, um, in, uh, Colorado, we had that, we had we had all the camp stuff set up and, and they set up, we set up a 10 man tent that we brought from uh, Network 1. Pretty much like a, like a mobile command center, like you could stand up and walk around in that thing and I slept right outside of it on the, on the ground, just in my sleeping bag on the ground. I had, I think I had my, uh, I don't think I used a pillow or something but I don't usually use pillows now, I find it's better for my like, neckline, but anyways, no worries, um. I woke up in the morning and I was going around waking people up and then I shake the big ten man tent, I'm like alright wake up guys, and then I don't hear anything and I shined the light in, like hey wake up, don't hear anything. Open it up. Nobody in there, not a single bag, not a single backpack, not a single pair of boots, not a single sock, nothing. I slept right outside of a fully fully vacant 10 man tent, but I actually liked that I did, I, uh, that was the first time in a very, very long time if ever that I've actually been able to sit and just watch the stars. And I saw shooting stars, a few, made a few wishes, can't tell you though. Um. Saw some satellites, which is really cool to be able to do with the naked eye and uh, yeah was very nice, very nice thing with sky there.

**Brandon CA (Alexi Guthrie) 1:08:41**

If you, if you get in a good place with, you know, being able to see the stars, you get to see some pretty crazy stuff. When we were at White Mountain peak we, me, James and Nathan California and I think Logan, yeah, Logan California was watching, us four, we were watching while everyone was heading to bed. We were looking up at the sky and we saw this little star way, way far away and it was like, bouncing back and forth, it was quite intriguing. Never seen a star like bounce up and down, left and right, like, consistently.

1:09:19

How close were you to Area-51?

**Thomas Rousseau 1:09:22**

Yeah, probably, probably pretty close actually.

**Brandon CA (Alexi Guthrie) 1:09:26**

I mean...

1:09:27

New Mexico, you're actually pretty close to Area-51.

**Thomas Rousseau 1:09:32**

Yeah, at one point Brandon went off behind some rocks and they came back and he sounded a little different and his skin's a little green but we just been, we just been going with it the whole time.

1:09:40

Yeah, now he sounds like Obama, dude.

1:09:49

I just want to stick [inaudible].

**Thomas Rousseau 1:09:57**

In California, is he in northern or southern?

**Brandon CA (Alexi Guthrie) 1:10:00**

He's part of my network, he's in Southern California.

**Thomas Rousseau 1:10:04**

You should go and find some big architecture issue stuff to take for a good practice and also to generate culturally relevant content for us. I actually like the, hm, no, the California State Capitol, is that in Southern California?

1:10:33

Northern California.

**Alexander OR (Richard Flannery) 1:10:34**

I can actually get some really good photos of it.

**Thomas Rousseau 1:10:38**

Yeah. I really liked the, the monument they had up front. They originally had, they took a part off of it recently in like 2015 that had like the missionaries, converting the, the tribespeople, because that was, that was racist or something. But now it's just been languishing in some warehouse ever since, they always say, oh, well, we're gonna put it in a museum or we're gonna put it back up. I go to museums, alright. They're not putting any of these huge statues and stuff like that in a museum because it's like, outdoor civic architecture. Museums usually deal in like, smaller life size statues of a person that's like, the size of a person, right? You can move it around with a dolly or busts. You know, very rarely do museums have like big statues like that. And if they do, they're outside. And none of these museums want to display stuff that's like, quote unquote racist outside, because then they're going to get like, attacked, right?

**Brandon CA (Alexi Guthrie) 1:11:32**

Oh, trust me. I, I, I know. [Inaudible] be right about that. Oh, not even warehouses anymore. They're not even saying they're putting it in warehouses anymore. , they've taken down some recent Confederate statues. And I keep track of that stuff. That pains me as a Southerner to see that. And they just recently sawed in half a statue of Robert E. Lee.

1:11:55

That's in Richmond, right?

**Brandon CA (Alexi Guthrie) 1:11:57**

I think, I think that's the one I'm thinking of. And there's another one where I think they just tore it down and melted it. They didn't even give it a, a chance to be sold to like, a group like Sons or Daughters of Confederate Veterans where they would put it on private land, um. Because there were some, some groups asking, let me buy that so I can erect it on, um, you know, private land, and they're like, nope, we're melting it down.

**Thomas Rousseau 1:12:21**

Have y'all seen that privately owned Stonewall Jackson statue in, I think it's in Tennessee somewhere. It's atrocious. Look it up. Look up Stonewall Jackson statue.

1:12:35

Is the one that people use as a toilet?

**Thomas Rousseau 1:12:38**

No.

**Brandon CA (Alexi Guthrie) 1:12:39**

Do you know what I'm talking about?

**Thomas Rousseau 1:12:42**

No, I do not.

**Brandon CA (Alexi Guthrie) 1:12:44**

Yeah.

1:12:45

People are using the statue of Stonewall Jackson as a toilet?

**Vincent TX (Kyle Morelli) 1:12:48**

There was there was some like, I don't know, it was, I don't remember who the monument was. I'm a Yankee. But it was some, some...

**Thomas Rousseau 1:12:57**

No, its Nathan Bedford Forrest, my bad.

1:12:59

They're using Nathan Bedford Forrest!?

**Thomas Rousseau** 1:13:01

No, no, no. Okay, so if you look up Nathan Bedford Forrest statue, the first two. The first image is the most horrendous piece of, piece of sort of public architecture that I've ever had the mis, like I said, I want to destroy this like, I want, it's like the handshaking meme with BLM protesters. Like, get rid of this thing please.

1:13:24

The one with the gold?

**Thomas Rousseau** 1:13:28

He's sticking his tongue out.

**Brandon CA (Alexi Guthrie)** 1:13:29

I've never seen this before.

1:13:31

Oh my good lord.

**Thomas Rousseau** 1:13:34

Boomers are like we'll just, we'll make our own statues. And this is a result.

1:13:40

There used to be an Abraham Lincoln statue that guy's [inaudible]...nobody has like claimed responsibility for it.

**Alexander OR (Richard Flannery)** 1:13:52

But like yeah, it got it got completely sledge hammered.

**Brandon CA (Alexi Guthrie)** 1:13:56

I'm sure it's the usual suspects who sledgehammered it, either antifa or BLM.

**Alexander OR (Richard Flannery)** 1:14:02

Yeah, I think it was probably one of those groups thinking something stupid.

**Brandon CA (Alexi Guthrie)** 1:14:08

As per usual, but I've never seen the statue of Nathan Bedford Forrest. I've seen like the the other one.

**Thomas Rousseau** 1:14:20

Manages to have made, it manages to take a controversial subject and somehow appeal to neither side.

**Brandon CA (Alexi Guthrie) 1:14:26**

Was this thing made recently or a long time ago?

**Thomas Rousseau 1:14:29**

No, no, it's more recent.

1:14:37

On April Fool's you should make that a SOC post.

**Thomas Rousseau 1:14:42**

I'd have to actually go visit it. I think. I think it's in Tennessee.

**Brandon CA (Alexi Guthrie) 1:14:53**

There we go. There's a normal statue of Nathan Bedford Forrest.

**Thomas Rousseau 1:14:58**

Yeah, they recently exhumed him from his grave site in Memphis but not just Memphis.

**Brandon CA (Alexi Guthrie) 1:15:04**

Not only that, they exhumed him and his wife.

**Thomas Rousseau 1:15:08**

Having been to that part of Memphis several times, I'm sure if even he [inaudible] in Memphis and he's a racist and Memphis is a is a Afro-American city.

1:15:22

They really can't like, just like, let him sleep? Well, I don't, I don't get that.

**Thomas Rousseau 1:15:28**

Well, to be fair. I mean, I'm not obviously making apologetics for it. But it was a big, like, pedestal, and it was in the center of the city. And he had a big, he had a big equestrian statue over it, and it was in a big park, surrounded by a hospital on one side and the University of Tennessee on the other. Also, they have a big college, you know, lots of, lots of left-wing nurses doing their TikTok dances and twerking, you know.

1:15:54

So he was mocking them, is what you're saying.

**Thomas Rousseau 1:15:57**

Even in death, even in death, he was, he was mogging on them. Yeah, alpha male style, as they say on Twitter dot com.

**Vincent TX (Kyle Morelli) 1:16:07**

The bird app, as Nick New York says.

**Brandon CA (Alexi Guthrie) 1:16:09**

The bird app.

**Thomas Rousseau 1:16:11**

Alright, so we got interviewee 803795. He says we met, we met, he met someone, went over what the group was about and he answered a bunch of questions, basically to make sure he is on the same page about what to expect from the group. We took a walk and put up some stickers and took some pictures, or he says we put up some slaps, that's what antifa calls them, and put some [inaudible] he says, he says he picks Gabriel and he is from, what state is he from? Check the record. Give me a moment. He's from West Virginia, server, you see posted some of the stuff, let's see what he said. Alright he says "I think the group's on the right path, maybe a little small. But it's hard for a group like ours to grow in this day and age with all the censoring but I like where it's going... ..If anything is gonna change it's gonna take a lot more people, I think you have the right message for people to stand behind and believe, something I want to be a part of." I like when people, it's the silliest thing in the world when people complain, like, when they leave, this guy's obviously, he's fine. He's like, oh, I don't think the group's big enough. So I'm joining. Correct response. But some people are like, I don't think the group's big enough or growing fast enough. So I'm going to leave the group. It's like, okay, you realize, you can't recognize the problem and also willingly make it, make it worse. Doesn't make any sense.

**Alexander OR (Richard Flannery) 1:17:43**

I also hate when people complain about the messaging, like the, the slogans and stuff.

**Thomas Rousseau 1:17:48**

Like that one [inaudible].

**Brandon CA (Alexi Guthrie) 1:17:59**

I do like naming the Jew.

**Thomas Rousseau 1:18:02**

But the message goes over universal moral principles that apply to everybody, even and especially Jews, you know?

**Brandon CA (Alexi Guthrie) 1:18:16**

Like, like, whatchyamacallsit.

1:18:21

That's discrimination.

**Brandon CA (Alexi Guthrie) 1:18:22**

What, what are what are they called it? It's coming to me?

**Vincent TX (Kyle Morelli) 1:18:27**

Italians?

1:18:28

Federal Reserves.

**Thomas Rousseau 1:18:31**

Oh, well, yeah. Like, like demonstrations. Yeah. But, you know, when it's, like when we talk about, you know, the exploitation or the internationalism or this stuff. You know, someone says, "Oh, what if, what if Jews are doing that, then it's bad," just like I said, "what if, what if, what if other people were doing that, then it's bad." Just like I said, because it's not, you know, it has more to do with what's actually going on in, right, in relation to how the nation is being destroyed, than, you know, exactly, like a who's who list of what, who's doing what. It's more about understanding the moral principles of what is wrong. And then you can interpret that moral philosophy on to any nature of thing. And also, I just would prefer for our message to be all about that. Because, if, because, you know, it's just, it's really, it's really difficult for a lot of these people to argue against our moral principles, because they're very correct. And they're widely applicable. But it's very easy for the, for people to get mired in the whole, you know, like, for example, the whole Holocaust thing, like people have been debating the Holocaust for a very long time, since it was probably still allegedly, or unallegedly, going on. And I just find it silly. Like we had one, one guy who joined, and he left the group because he feels like, oh I need to pursue more important political ventures, and, you know, what he's been doing since? Like an 80-part series debunking the Holocaust, an hour long podcast each. It's like, buddy. It's yeah, it's just like, you know, you believe what you want to believe. Say what you want to say about it. I honestly don't have an opinion. I've never really looked into it, I don't care. I really don't care. It just doesn't, it doesn't affect me. Don't care, but, you know, I feel like just giving so much of someone's time and life and messaging to this, which is very precious as it is, is a little bit lacking in priority, shall we say? I remember once, Matthew Heimbach, you know, said, and this is his big arguing point, that you're never going to get white America to believe in, like, nationalism or, you know, in-group preference or whatever... ..unless you first, now get this, first, get through to making them you know, think Hitler was like, you know, the, the Superman, and the Holocaust is a lie and all this other stuff. And it's like, that doesn't make sense. And it's not true. So like, believe whichever, whatever you want to believe about that, but like, having a sensible and relevant, you know, nationally oriented message and fixture is mucho more importante. Thank you, Vincent, who found this while traveling?

**Vincent TX (Kyle Morelli) 1:21:26**

Yes, I like rocks.

**Thomas Rousseau 1:21:31**

Go ahead then Brandon. Tell me why I'm wrong.

**Brandon CA (Alexi Guthrie) 1:21:33**

I think, coming from that angle, I think the reason people say, you know, we got to like debunk the Holocaust or other things, like there's big similar debates about, like, the Civil War. Just eliminating that kind of, I guess, systemic white guilt a lot of normie white people have like, ohh we did too much bad stuff to do-da-do-da-do.

**Thomas Rousseau** 1:21:56

I think we do better for people's potential guilt by actually getting out there and making sure people have actionable examples of confidence and resistance, you know,

**Brandon CA (Alexi Guthrie)** 1:22:10

I mean, I'm not the type of person that says it's like, there's this one correct way to go about this issue. I usually view things as multiple cogs in the machine, so, like, you got your activist groups, then you got like your kind of new, like, I guess news personalities, you could say, and...

**Thomas Rousseau** 1:22:29

Let Mike Enoch do debunking the Holocaust part 85 two hour livestream.

**Brandon CA (Alexi Guthrie)** 1:22:38

They, they, they and guys, [inaudible]

**Thomas Rousseau** 1:22:41

I accidently made an account without a state tag. He's just Carter, Carter from where?

**Brandon CA (Alexi Guthrie)** 1:22:50

Carter, Carter USA.

**Thomas Rousseau** 1:22:53

I think he's from Guntur, he met, he met someone in Guntersville.

**Vincent TX (Kyle Morelli)** 1:22:56

There can only be one.

**Thomas Rousseau** 1:23:00

[Inaudible] Alabama.

**Brandon CA (Alexi Guthrie)** 1:23:01

Oh, you're gonna have, have some people to fight over with that, Vincent. Nathan Arizona is gunning for that USA tag.

**Vincent TX (Kyle Morelli)** 1:23:10

[Inaudible]... there's no specific parameter. There are specific parameters that must be met.

**Brandon CA (Alexi Guthrie)** 1:23:17

Like never being in one place too long.

1:23:19

You have to, you have to come before the council.

**Thomas Rousseau** 1:23:23

You have to own property in all 50 states and DC.

**Brandon CA (Alexi Guthrie)** 1:23:27

We grant you the rank of member but not the rank of USA.

**Vincent TX (Kyle Morelli)** 1:23:42

I will accept an appearance if he has a proper case.

**Brandon CA (Alexi Guthrie)** 1:23:50

Based Star Wars meme.

1:23:55

[Inaudible] West Virginia.

**Thomas Rousseau** 1:23:58

Welcoming Carter Alabama. Welcome him to it. Carter Alabama needs to be added to the regional chat. Alabama is doing really well. So there's Georgia. Georgia has just as many guys now.

**Vincent TX (Kyle Morelli)** 1:24:17

I forgot Georgia existed.

**Thomas Rousseau** 1:24:21

That's not very, very [inaudible] of you, sir.

1:24:24

You hurt my feelings.

1:24:26

If it makes you guys feel any better, I'm from Rhode Island and you've probably never been there.

**Brandon CA (Alexi Guthrie)** 1:24:31

How do you feel about them changing the name of the state?

1:24:35

It's pretty stupid considering "plantation" doesn't have anything to do with, like, slaves. It just, it just meant a colony.

1:24:42

I know. I know.

**Thomas Rousseau** 1:24:45

Did they change the name of Rhode Island?

1:24:47

They did.

**Brandon CA (Alexi Guthrie)** 1:24:47

The full name of Rhode Island, um, Rhode Island is not the full name. It used to be. There was something longer to it.

1:24:52

Rhode Island and Providence Plantations.

**Brandon CA (Alexi Guthrie)** 1:24:55

Yes, that was the full name of the state.

**Thomas Rousseau** 1:24:57

Well, it's not a plantation anymore. It was a state. So why have plantation in the name? It is it's like saying the farms of West Virginia or like the West Virginia Farm, but it's not a farm. It's a state. So...

**Brandon CA (Alexi Guthrie)** 1:25:07

Listen, I just want to bring back the plantation in the name just to spite the blacks.

**Thomas Rousseau** 1:25:14

Blacks in Rhode Island, all 3 of them.

**Vincent TX (Kyle Morelli)** 1:25:17

There, I mean, there's more Dominicans than blacks. But yeah.

**Brandon CA (Alexi Guthrie)** 1:25:21

That's, that is true. The, really just the northeast area that, freakin airdropping Somalis and Dominicans.

1:25:29

Yes, yeah, they're hyper aggressive just like blacks, but.

1:25:32

Airdropping like, with like, with my head.

**Brandon CA (Alexi Guthrie)** 1:25:39

I mean, I remember, like the, the cops in Maine, like, they were dropping a bunch of Somalis in Maine and the cops were like, talking to the news. We've never seen anything like this before. They're talking about all the crimes that are happening and like, gangs are being formed just to go around and mug

people. It's like, "we've never experienced anything like this before". And the cops are like, kind of just I guess in a bit of a culture shock.

**Vincent TX (Kyle Morelli) 1:26:03**

Yeah, everyone from Maine is like 60 years old. So they have no idea what's going on.

**Brandon CA (Alexi Guthrie) 1:26:08**

But yeah, it's the whitest state in the union too.

**Vincent TX (Kyle Morelli) 1:26:13**

Not for long.

**Brandon CA (Alexi Guthrie) 1:26:14**

Yep. Sadly, not for long. Yeah.

**Vincent TX (Kyle Morelli) 1:26:18**

There's nothing I can do about it anymore.

**Brandon CA (Alexi Guthrie) 1:26:22**

I've developed a tactic, if we just throw buckets of fried chicken into the sea, we might be able to get them to return to the Dominican Republic.

**Thomas Rousseau 1:26:32**

Thank you, Brandon.

1:26:34

My goodness.

**Thomas Rousseau 1:26:35**

[Inaudible] broke commentary rule again [inaudible].

**Brandon CA (Alexi Guthrie) 1:26:39**

Hey, I had I had to get something in.

1:26:50

I gotta go. I'll talk to you guys later,

**Brandon CA (Alexi Guthrie) 1:26:53**

Later. So how about that northern Idaho?

**Thomas Rousseau 1:27:06**

Never been there.

**Alexander OR (Richard Flannery) 1:27:08**

That seems very, very beautiful. From what I've seen. I really want to go up there, but I just get so busy with like, being here.

**Brandon CA (Alexi Guthrie) 1:27:21**

Everyone I know in the white nationalist sphere now, it's like, I was like, where do you want to live? Northern Idaho.

1:27:29

Every single one?

**Brandon CA (Alexi Guthrie) 1:27:30**

Almost everyone.

**Thomas Rousseau 1:27:31**

Um, I don't want to live there.

**Brandon CA (Alexi Guthrie) 1:27:33**

Almost.

**Alexander OR (Richard Flannery) 1:27:34**

I mean, because I'm from the PNW, like, my heart lies in a very mountainous woody area. Like, if you've ever seen some of the shots, I occasionally take of like, really mountainous areas here in Oregon and any other states I visit. I really focus on the raw natural beauty and the Pacific Northwest, specifically northern Idaho still has quite a bunch of it left.

**Brandon CA (Alexi Guthrie) 1:28:03**

Oh, yeah. Northern Idaho is uh, from what I've seen, quite breathtaking. Yeah, a lot of people going up there. Almost everyone I know in California, they have plans to try and go up there at some point. But yeah, it's, yeah, it's tempting. At the same time I would like, like to be back in the south too. Yeah.

1:28:30

I'm already in, in a very beautiful part of the Pacific Northwest with lots of mountains and lakes and whatnot. And I still think about moving up to northern Idaho like the Coeur d'Alene area.

**Brandon CA (Alexi Guthrie) 1:28:39**

Now you see, there ya go.

**Alexander OR (Richard Flannery) 1:28:40**

Yeah, everyone likes CDA man. I love CDA. It's beautiful.

**Brandon CA (Alexi Guthrie) 1:28:45**

Honestly, I think the lakes are...

**Thomas Rousseau 1:28:47**

If its a white nationalist Mecca then why do we only have like two guys there?

**Alexander OR (Richard Flannery) 1:28:53**

Actually, you want to know why Thomas, because they're all in dumb gay militias.

**Thomas Rousseau 1:28:58**

That makes sense. Yeah.

**Alexander OR (Richard Flannery) 1:29:01**

That's, that's the problem.

**Thomas Rousseau 1:29:02**

So we had an issue that are with a guy who was I think, technically and like, it was like the Spokane. Spokane is right across the border. It's the same area.

1:29:11

Yeah.

**Thomas Rousseau 1:29:12**

And, you know, he had an issue and kind of the long and short of it was, he was, you know, mixing in the, you know, correct me if I'm wrong. He was mixing in the like, his Telegram friends with members to do like sparring and workout sessions.

**Brandon CA (Alexi Guthrie) 1:29:29**

Oh, I know what you're talking about.

**Thomas Rousseau 1:29:30**

And yeah, and the idea was like, hey, this isn't, this isn't working, we should fix this. And then why don't you do other activism in addition to this, which is good, you know, nobody's saying that that's bad. And then he didn't want to do that. He didn't want to document it. And he didn't want to try to, you know, put those guys through any form of vetting so that we know who he is actually with, you know, outside of just people from Telegram. Which is not a safe standard because Telegram is full of tons of you know, dangerous...

1:29:57

Fags.

**Thomas Rousseau 1:29:57**

[Inaudible] people. Yeah, well, yeah.

**Alexander OR (Richard Flannery) 1:30:00**

Well, and it's also not properly encrypted, you know, I could forward a message to someone in a private conversation and be in...

**Thomas Rousseau** 1:30:07

End to end encryption doesn't mean jack because anybody can just see anybody's, let, people focus, people, people post things on encrypted apps. And they're like, "Oh, I'm so safe." But then someone, but then someone takes a screenshot and like, oh, all that encryption. Wow. You know, fun fact, it's still admissible in court if it's a screenshot. Big woop.

1:30:26

True. True.

**Thomas Rousseau** 1:30:30

Encryption is like, a huge like, misnomer for security in like, circles about people who don't actually understand how these things happen. If there's, if there's a fed in your, like, unvetted Telegram chat, or just someone who is a rat or someone who can leak messages, then it doesn't matter if it's encrypted, because you gave this person access to this chat. And congratulations, you are a dum dum.

**Alexander OR (Richard Flannery)** 1:30:54

Exactly.

**Thomas Rousseau** 1:30:55

Like the server itself, I don't actually think has like end-to-end encryption, I don't think it does. There's maybe something weird about it, which is encrypted somewhere. I don't know how the heck it works in the innards, but it's infinitely more safe than Telegram stuff, because we actually have human, like, encryption. Which is like, physical security measures about how people get in, and how they behave, and how stuff is compartmentalized inside. And again, we can't, we can't ensure any of this if we have people who are just unvetted random dudes. And, you know, a big reason, what, how we keep our security is we keep everybody active doing, you know, things under a standardized banner, both literally and figuratively. So if we don't have that, we don't have our vetting. There's no organization anymore. It doesn't make sense. So, you know, standards matter. And, and I think, you know, we just, militias are also dumb because, you know, they're like, "oh, I got my cans of pork and beans, and I got my guns" and stuff like that. But, you know, militaries aren't just based around a bunch of people that just walk up and pick up guns. You know, most of like, basic training isn't people firing, you know, down targets on a range, right? Most of it has to do with fitness and coordination and team building and, you know, unit tactics and logistics and supply. And, you know, getting people into situations of discipline, following and receiving orders, communication skills, you know, technical aspects, all the stuff.

**Brandon CA (Alexi Guthrie)** 1:32:29

The spirit de corps.

**Thomas Rousseau** 1:32:32

Yeah, if you're, if you're French, then uh...

**Brandon CA (Alexi Guthrie)** 1:32:36

Hey, they use that in the Marines, alright.

**Thomas Rousseau** 1:32:38

Wouldn't it be "esprit"?

**Brandon CA (Alexi Guthrie)** 1:32:39

[Inaudible] heard spirit. But maybe, I don't know, I don't speak French. Only a little.

**Thomas Rousseau** 1:32:47

I feel like the French pronunciation would be "esprit". But probably, probably they don't pronounce the E either because they're French anyways. But yeah, so it's like, and we do all of that, obviously, just without the the guns and the violence which is, which is the key factor, by the way, the key factor that we leave out. Because, you know, we get the benefit of all of these other things where we train guys in team building and leadership, logistics, technical skills, communication, you know, fitness, mobility, you know, discipline and strength, and, and so on. And putting people into situations and we actually do all this and we are still able to use our techniques, because we don't use firearms or violence. And then because of that, we can actually implement all of these things in the real world. But if you're a militia, you know, you either go from, or if you're like, one of these modern day militias, right, you either go from doing nothing to like, oh, you have a, you know, a hot war against the government. Whereas we can actually do something other than either nothing or, you know, getting into suicidal, you know, battle charges against, you know, Air Force bases, for example, you know. So, yeah. Not even to say we would want to do that, because we don't do, that's not, that's not the ideal circumstance. It's quite far from it, in fact. you know, the idea is about being able to build actionable, you know, actionable efforts that actually mean something that can be implemented on a regular basis and militias don't do that. And that's not even, that's, that's, that's, that's a logistical ideological issue. Like obviously the principle of a militia like historically I agree with, but, you know, nowadays with the, with the, with the logistical realities of security and how much the government frickin loves to integrate themselves with those things. It's, it's completely, it is not worth it, stay, stay a mile away from the militias, there's a very good reason that we have a very staunch no dual membership with militias policy. We are even wary of people who have previously been in one of those because it's not you know, it's just a very, it's not, you don't get what you want, you don't get what you want to get out of it. I'll leave it at that.

**Alexander OR (Richard Flannery)** 1:35:02

But uh in reference that gentleman in northern Idaho. Yeah it's...

**Thomas Rousseau** 1:35:06

He's a great guy.

**Alexander OR (Richard Flannery)** 1:35:07

Yeah he's a great guy, I liked him.

**Thomas Rousseau** 1:35:09

Maybe he'll turn around, I, when I met him, when I met him, I had a great time but you know, it's just stuff like that.

**Brandon CA (Alexi Guthrie) 1:35:14**

I was talking to him, I was seeing, trying to see if I could, you know, convince him to return but he seems very set on what he back, like, I guess in fitness thing in northern Idaho. He seemed set on that path. It is what it is.

**Thomas Rousseau 1:35:37**

We're doing tons of new fitness stuff now too. It sucks, it would be great to have him around for that. He would be great voice. We have a, we have, we, we formalized the fitness, fitness kind of lifestyle support group with counselors and stuff like that. And he'd be great for that.

**Brandon CA (Alexi Guthrie) 1:35:51**

That's what I was trying to tell him. It's like hey, we're getting rolling here but I don't know. He seemed set on...

**Thomas Rousseau 1:35:57**

Things are rolling.

**Brandon CA (Alexi Guthrie) 1:35:58**

Yeah, exactly. Rolling it right. Which reminds me, um...

**Thomas Rousseau 1:36:05**

No, no, I have something to rant about. Sorry, cutting you off, unless it's important. I was talking to a, to Michigan, oh five friend. Jesus. I was talking to a Michigan guy. And do y'all remember the the Richard Spencer Michigan State University speech where he, where there's the huge fistfight out front and Matthew Heimbach was there with like a dozen guys in black, you know, like turtles, not turtle necks. Like, like, work, work jackets. You know? Y'all remember that? That was a while ago, it was years ago.

1:36:37

Yeah I never watched Richard Spencer.

**Thomas Rousseau 1:36:39**

Well, neither did I, but it was a big deal.

1:36:43

Where Richard Spencer got punched in the face?

**Thomas Rousseau 1:36:44**

No, no, that was, he got punched in the face, I think that was in DC, maybe about the inauguration.

1:36:49

I think this was Heimbach who got punched in the face. During that one, or somebody got punched in the face.

1:36:54

There's a lot there. There was lots of punching in the face at that..

**Thomas Rousseau** 1:36:56

Well, lots people got punched in the face at MSU for sure, just Spencer was inside. But anyways, so, that, so back then, PF had sent a small group of guys out to that, to support the whole thing, and you know, dumb in hindsight, thank you. I know, the last few years are a, are a staunch reminder that I have learned since 2018. And, and there were a bunch of Michigan guys, like we had, I don't think we had really formalized our network, well actually, I think we did have networks back then, they weren't nearly as solid and formal as we have them now. But we had them, and Michigan actually had one of the stronger networks in the country. And there were maybe eight to a dozen maybe even more guys there. And there was some leaks started by, I think that [inaudible] was a guy from, I think he was from Pennsylvania. Um, no, that was after, he was from Ohio. It was like, a John Brown Gun Club guy that joined in Ohio and was like, you know, in some of the local chats and stuff like that. He didn't end up doxing anybody, but he leaked some messages. And, and he also leaked a voice chat. Where one of the Michigan members, not, one of them, one of them made that infamous "ethnostate rape gangs" comment [inaudible].

1:38:16

[Inaudible]

1:38:16

Oh, I remember.

**Thomas Rousseau** 1:38:18

That's where it came from. That's where it came from. I, I wasn't there. Or I, by golly, I wasn't listening. Because that, like, come on, you know, like I don't care if you're joking. Is it so much, is it, is it asking so much of someone ideologically, to not be a pro-rapist, you know? Apparently back then it was. Nowadays we don't have that issue because we're, not only are we more ideologically coherent, we're also more professional. So, not only should you not believe that stuff, in case anybody does, in case any of you are in favor of organized rape? No. Um, then, then, yeah, but not only should you not believe that stuff, you should not say it, either. I don't care, well actually I do care what you believe. But anyways, long story short, one of them had the thing and, and then a bunch of them left. Like almost all of them left after that because "Oh, the chats were leaked. Oh, we're going to get doxed. Oh, you know, the organization is falling apart and everything sucks. Oh, this is it." You know, like, and they were thinking, oh, we're just gonna be like all these other quote unquote alt right groups that just buckle under that pressure, but like them we are not. So obviously, you know, they left to be it the whole thing of oh, security, oh, getting doxed. Oh, the events are dangerous, and so on. And to be frank, you know, they, you know, those were legitimate issues. But you know, when they talk to me about it as far, as far as I can remember two years ago.

1:39:42

Is Thomas cutting out for anyone or is it just me?

1:39:46

Maybe [inaudible]

**Alexander OR (Richard Flannery) 1:39:46**

Uh he's kind of cutting out a little bit for me, uh, but you're also cutting out a little bit.

1:39:51

[Inaudible]

**Thomas Rousseau 1:39:52**

But anyways, so when they, they're freaking out about oh, security, getting doxxed. Ohh, events are dangerous, and those are all very logical critiques, makes a lot of sense. And I, you know, very likely told talk to them about these things. And I said, hey, I understand these are real big things, let's make it better, let's fix this stuff. And instead, they just left. And apparently, they got back in touch with, with some of our current Michigan guys who are again, on the, on the, you know, on the on the edge of becoming a network, you know, years later, you know, it's been three years, we've done it, but it's been three years, right? Because a lot of is just chance. And, you know, they might have been, they have, and they have a social group now, that all the, almost all of the same guys just have like a social group. And it's just, it's so frustrating, like, you know, hey, this is this is a problem. I'm going to, I'm going to leave because this is X problem. It's like, okay, I understand, can we, can, we should fix X problem, can you help me fix X problem? No, I'm not going to fix X problem. Okay, well, even if I do fix X problem, could you come back if we have X problem fixed? It's like, okay, maybe, and then X problem is fixed. Everything is as you wanted it, you know, stuff is so much better. You know, can you help me out over here? And no, sorry, I, I like to grill hot dogs. Very disciplined. Apparently, they said it was funny. They said to the guy, it's like, oh, yeah, Thomas is probably still mad at us. No, they're wrong. I'm not mad. Just disappointed. So yes, very, very, very cautionary tale. I try, I don't really give those things much time of thought. But if they are presented to me, I, I figure it matters. Because, you know, a lot of the great ideas that people have are merely reliant upon people sticking around for long enough to actually invest themselves in the organization. And to get that favor returned in others because, you know, manpower and time are our most valuable elements of currency that we deal with. A real use could, you know, there are some things in some forms of social organizing that are just outside of our reach, with certain limitations of manpower and time. Not to say that we're necessarily strapped for those things, we're pretty well equipped, it's just, there's always something more than we can do. It's oftentimes a lot of people want those bigger things, but they want to already be done for them. And I can't do it all for you. You know, if I could, then you wouldn't need to be here. You know what I mean? We got to work together on this and sometimes you got to be okay with, with, you know, joining something where all of your grand ideological ideas are not, you know, something that you can fulfill immediately, not somewhat, not like as far as ideologically, but as far as like tactics. Oh, I want to do XYZ. We can't always do XYZ. Sometimes you got to do ABC, first, of how the alphabet goes, because you don't know. Anyways, on that note, I'm gonna continue printing the stack. I'm going to get to the rest of this, get to the rest of this stack tonight. I'm going to put on a movie. I'm going to finish the rest of my espresso. I bought a bunch of, bought a bunch of groceries today. I got like 30 of those little, those little Maruchan noodle cups. They had lime, chili, lime, chili and spicy hot sauce. I think I'll have one.

1:43:24

Nice.

**Thomas Rousseau** 1:43:25

And some tuna. Probably some tuna and ramen, classic dish. Maybe top it off with a glass of milk or something? I don't know. I don't know. Maybe I'll work out tonight. I don't know, my sleep schedule has been crazy. I'll be up until like 4. Anyways, I'll talk to you all later. Stay safe. Is there anything any questions, comments I can open before I hop off?

**Brandon CA (Alexi Guthrie)** 1:43:45

[Inaudible] ...my son in his bath. I heard talk to y'all ... so [inaudible]

**Thomas Rousseau** 1:43:57

Hey, how's it going? Are we're all good.

**Alexander OR (Richard Flannery)** 1:43:59

Yeah, we're all good.

**Thomas Rousseau** 1:44:00

Cool. Talk to ya'll later. Stay safe. Goodnight.

**Brandon CA (Alexi Guthrie)** 1:44:06

Yeah, my connection went downhill.

1:44:10

Hi Brandon.

**Brandon CA (Alexi Guthrie)** 1:44:12

Hi, I was saying you're going to be at the regional meet up Saturday?

1:44:17

No, I haven't heard anything of it. Anything.

**Brandon CA (Alexi Guthrie)** 1:44:21

Regional meeting 7:30 pm Saturday.

1:44:25

At 3:30?

**Brandon CA (Alexi Guthrie)** 1:44:26

7. 7:30.

1:44:28

7:30 this Saturday? Yeah, I don't really have plans.

**Brandon CA (Alexi Guthrie) 1:44:32**

Good. Be there, there is much that we must discuss. yeah, I think my connection is crapping out, so, like I hear like every other thing someone says. I guess I just want to call it a night. Since [inaudible] the conversations are going out with [inaudible] at the moment.

**Alexander OR (Richard Flannery) 1:44:55**

Yeah. You have a good night, Brandon.

**Brandon CA (Alexi Guthrie) 1:44:58**

Good night guys.

1:45:00

Good night. I'm gonna call it too, I just realized what time it is I've been Mumbling and chilling.

**Alexander OR (Richard Flannery) 1:45:05**

Yeah, I've just been just been hanging out listening and talking and then didn't realize "Oh, God its 10:30".

**Brandon CA (Alexi Guthrie) 1:45:12**

Yeah, when Thomas started, uh, talking about that long thing, he was cutting, like, in and out on every other word so I only heard like half of what he said. But, uh, yeah, it's, it's getting late. I think, I think I'll get in like a nighttime, nighttime lifting session and go to sleepyby. Sleepy time.

1:45:30

Based.

**Brandon CA (Alexi Guthrie) 1:45:31**

Yes, got, got to get back on that workout grind, uh, I was lazy for a few months, got to get back into, it do some cutting.

1:45:39

There you go. Does anybody know if you have issues with like, the mobile app? Just, do you text Thomas, I'm assuming?

**Brandon CA (Alexi Guthrie) 1:45:47**

Uh, are you on iOS or Android?

1:45:50

Android.

**Brandon CA (Alexi Guthrie) 1:45:52**

Okay, Android uses a third party application. So...

**Alexander OR (Richard Flannery) 1:45:56**

I, sometimes, Mumble, it just crashes, dude.

**Brandon CA (Alexi Guthrie) 1:46:00**

Yeah.

**Vincent TX (Kyle Morelli) 1:46:01**

I just keep on like, my mobile is in the lobby, but I just can't get into #general or any meeting rooms. It says like, permission denied, essentially.

**Brandon CA (Alexi Guthrie) 1:46:09**

Ah, you need, you need permission from Thomas.

**Alexander OR (Richard Flannery) 1:46:11**

Yeah, you're not authenticated.

1:46:12

Gotcha. Okay, gotcha. Cool beans. That makes sense then.

1:46:16

Alright, well, I'll talk to you guys later. Then. Have a good night.

**Brandon CA (Alexi Guthrie) 1:46:19**

Night, guys.

1:46:20

Good night, everyone.

1:46:22

Nighty night.
